Ten Key Benefits of Attending

1. **Practical Strategies to Develop Self-Regulation Skills in Young Children**
   Reduce behavior problems and increase learning with practical and doable strategies to develop children’s self-regulation skills … Ideas you can use and adapt to meet the needs of your preschool–second grade students

2. **Tools to Improve Behavior, Social Skills and Teach Emotional Regulation**
   Young children need to be taught how to regulate their emotions and thinking to enable them to learn and get along with others … Learn how you can teach these vital skills to young students through everyday experiences and help them become more independent with strategies they can learn to apply

3. **Build the Necessary Skills Critical to Regulate Thinking and Behavior**
   Ideas for focusing attention, staying on task, ignoring distractions, inhibit impulsivity, planning actions and carrying them out, following directions, taking turns, and communicating verbally … Ideas you can try immediately and adapt to meet the needs of your students

4. **Increase Young Students’ Ability to Focus Their Attention Using Current Brain Research**
   Use strategies to help students increase their attention, focus and engage in thinking and learning in both emotional and academic situations … Discover the practical application of the latest brain research and how it will greatly benefit your students

5. **How Self-Regulation Skills Impact Young Students’ Behavior and What You Can Do About It**
   Regulating one’s thinking, emotions and behavior is critical for success in school and life … Understand why it’s key to help all your young students develop self-regulation skills and how it can make the difference in learning and positive social skills

6. **Essential Components for a Proactive Classroom Environment**
   Focus on the components that will get you the greatest results … What’s most important for young children to develop and maintain self-regulation skills when facing anxiety and stressful situations

7. **How Traditional Management Systems May Exacerbate Problem Behaviors**
   Find new ways to address problem behaviors … How to use goal-setting and self-evaluation systems that are easy, really work and enable students to become more independent in your classroom

8. **Ideas to Make Transition Times Fast and Easy**
   Use visual and auditory cues to help students make problem-free transitions … Strategies you can use immediately and see results

9. **Working Successfully with Students with Special Needs**
   How to apply all the strategies to your most difficult behaviors … How to implement a comprehensive plan for prevention that works for typically developing students as well as those with special needs

10. **Ideas, Ideas and More Ideas Specifically for Preschool – Second Grade Students with Challenging Behaviors**
    Multiple developmentally appropriate activities, strategies and ideas perfect for your students … Receive an extensive resource handbook to help you increase your students’ success
Outstanding Strategies You Can Use Immediately

- **Practical strategies to address self-regulation** deficits that prevent students from finding success in school

- Increase positive behavior and learning using **strategies that teach young children self-regulation skills**

- Specific strategies to **teach students to regulate their thinking, emotions and behavior**

- Scaffold for success using questions to facilitate students’ thinking skills and provide opportunities to learn and practice self-regulation skills

- **Practical behavior interventions** and supports for inclusive classrooms

- **Strategies to teach students appropriate behavior** through instruction, practice, feedback, and encouragement

- Increase young children’s ability to **focus and maintain attention**

- **Low-prep strategies** you can use immediately in the classroom or resource room

- Ways to **prevent conflict** due to a lack of self-regulating

- **Innovative ideas** for making adjustments in your physical environment

- **Help students internalize self-regulation skills** through scaffolding and modeling

- Build a classroom environment that **encourages the development of problem-solving strategies**

- Apply specific strategies that will **teach your children to make better choices**

- **Help your most difficult students** achieve daily successes

- Strategies that **address students with special needs**

- How to **build tolerance** in your young students

- Recognize and **strategize to teach young students who struggle to think and act** in an organized way

---

“This seminar is exceptional! Lisa is a fantastic presenter. I learned new techniques to incorporate into my classroom that will address the entire class, including difficult students! Thank you!”

– ERIKA CHAPMAN, KINDERGARTEN TEACHER

Dear Colleague:

When children don’t know how to read, write or do math, we teach them. When children don’t know how to behave in school, we often give consequences. Shouldn’t we teach them how to behave appropriately using the same methods we do when we teach skills and concepts? Model, use guided instruction, guided practice, feedback, and encouragement at their zone of proximal development? Of course we should, but too often we forget that young children do not walk through our school doors knowing how to behave and learn. Many children have not yet learned all these skills and they don’t acquire them naturally.

Even the well-prepared child needs our help in learning and applying self-regulation skills in a school setting. I am excited to share with you practical and easy ways you can teach these skills to all your students and get the results you want – students learning and working together, problem-solving in productive ways, and thinking before they act! In this strategy-packed day, you will learn dozens of ideas for creating and maintaining a classroom environment that teaches skills to help students be successful in school – socially and academically. We will cover how to reduce impulsive, negative behaviors, ignore distractions, and to plan and think before acting, with empathy and tolerance for others. In addition, I will share no-nonsense strategies for teaching students to follow directions, take turns, focus, and maintain attention in developmentally appropriate ways.

Dozens of practical strategies and tips will be presented to help you build your own successful program in support of young children with diverse needs. My goal is that you leave with new strategies, various resources and a renewed passion for teaching.

I look forward to meeting you and sharing specific strategies that you can implement immediately to reduce problematic behavior in your preschool–second grade classrooms.

Sincerely,

Lisa Rogers

P.S. You will leave with dozens of practical ideas and an extensive resource handbook to help you implement the strategies in your classroom.
Uniquely Qualified Instructor

Lisa Rogers is an acclaimed presenter and veteran educator who specializes in working with preschool–second grade students. She has over 20 years of experience in working with young children who exhibit difficult behaviors that prevent them from learning and socializing appropriately with others. Lisa’s extensive experience provides a practical perspective for teaching students who have self-regulation deficits including impulsivity, lack of focus and inability to think and plan actions. Lisa is a frequent presenter at local and state conferences and has developed inclusive education training modules with accompanying video. She is the author of Improve Behavior and Increase Learning: Develop Self-Regulation Skills, Increase Attention and Build Tolerance in Young Children (Preschool – Second Grade), the extensive resource handbook you will receive at the seminar that is filled with research-based ideas and strategies you will be able to immediately apply or adopt in your own classroom.

What Your Colleagues Say About Lisa Rogers

“Lisa is exceptionally knowledgeable and very engaging. She paced the material comfortably and offered ample opportunity to address individual questions. Every strategy is useful!”  
– Randi Scheiner Valencia, Senior Occupational Therapist

“This is a great seminar! I can’t wait to try the ideas and strategies with my students.”  
– Jha-Ion Motley, 1st Grade ISA Teacher

“I loved this seminar! The videos and examples were so helpful! Lisa Rogers is very knowledgeable and the strategies can be implemented immediately. Thank you!”  
– Amie Ross, Counselor

“Lisa Rogers provided helpful strategies to use in the classroom. She is also energetic and engaging, which made the day fly by. Thank you!”  
– Conley Burns, K-1 Special Education

“Useful information! I gained many transition ideas, as well as strategies to help focus and keep the attention of my students.”  
– Mary Martin, Director/Kindergarten Teacher

“Very practical tips and ideas! Lisa is knowledgeable, fun and engaging!”  
– Linda DeBlock, Teacher

“I enjoyed Lisa’s seminar and learned many new ideas and strategies that I look forward to applying in my classroom.”  
– Lorraine DiPasquale, Kindergarten Teacher

“Lisa shared many practical strategies that I can immediately implement in my classroom. Thank you!”  
– Christine Pricipato, Teacher

“I loved the examples, videos, sharing of materials, and how engaging Lisa was throughout the day. I will recommend this seminar to my colleagues!”  
– Kim Smith, Special Education

“Thank you for the practical and useful ideas to take back to my school and share with my colleagues!”  
– Jennifer Malefsky, Kindergarten Teacher
Special Benefits of Attending

Extensive Resource Handbook
Each participant will receive an extensive resource handbook specifically designed for this seminar. The handbook includes:

- Visual strategies to prevent off task and other behavioral challenges
- Goal setting and self evaluation forms
- Choice boards and “I Can…” charts to increase focus, attention and motivation
- What to say and do when children struggle to stay engaged
- Strategies to de-escalate anger and frustration
- Fun ways to transition and celebrate success

Meet and Share
This seminar provides a wonderful opportunity for participants to meet and share ideas with other educators interested in improving behavior and increasing learning in their preschool–second grade programs.

Consultation Available
Lisa Rogers will be available at the seminar for consultation regarding your questions and the unique needs of your own program.

Semester Credit Option
One graduate level elective credit is available with an additional fee and completion of a follow-up practicum project. Details for direct enrollment with Brandman University, part of the Chapman University system, will be available at the seminar.

Meet Inservice Requirements
At the end of the program, each attendee will receive a certificate of participation that may be used to verify hours of participation in meeting continuing education requirements.

Can’t Attend?
Other Professional Development Options:
