Practical Ideas and Strategies

Join outstanding PE teacher and national presenter, **Carrie Flint**, for an innovative seminar filled with 101 practical PE strategies perfect for all K-8 physical education teachers. In this unique and highly practical seminar, you will learn dozens of ideas to strengthen your PE instruction while creating a positive attitude in all your students – even those who have little or no confidence in their own physical abilities. Carrie has taken what she has found works in her own PE programs and packed it into a day filled with strategies, creative lessons, management tips, assessment ideas, recommended equipment and homemade options, and adaptations of activities to accommodate the wide range of student abilities you have in your own classes. Carrie's focus is on "doable solutions" rather than "bells and whistles" for developing and increasing students' physical fitness and for adapting any teaching environment no matter what obstacles you face. Whether you are experienced or new to teaching PE, you will walk away with exciting and engaging strategies you can immediately implement in your own program.

A Message From Seminar Leader, Carrie Flint

Uniquely Qualified Instructor

CARRIE FLINT is a highly experienced, award-winning physical education teacher, adapted physical education specialist, and national PE presenter. She has taught in numerous K-8 schools and has trained PE teachers across the country and serves on her own state's committee for the Physical Education Curriculum Framework. Carrie is known for her passion for physical fitness and helping all students see themselves as winners. She has dozens of ideas for getting students engaged, managing the class and materials, using positive play, and cooperative activities to promote full inclusion for all students. She is the author of *101 Strategies for Strengthening Your PHYSICAL EDUCATION Program (Grades K-8)*, the extensive resource handbook you will receive at the seminar which is filled with all the activities you will experience during her seminar. You will find Carrie's seminar fast moving and filled with practical ideas that can be immediately incorporated into your own physical education program.

Dear Colleague:

The experiences students have in association to physical activity in any environment (PE, recess, recreational) can stay with them for the rest of their lives. Research has shown that if it is a negative experience, it is more likely that the student will live an inactive lifestyle as an adult – and if it is positive, they will develop active and healthy, lifelong habits. I believe that we, as PE teachers, can make the positive difference for students – even those who have already developed a fixed mindset about their own physical abilities. Let's start together in this one-day, highly practical seminar that will inspire you with 101 strategies to make the most of your PE program.

I developed this seminar for all PE teachers who are looking for innovative ways to create inclusive programs where students are actively participating at their own skill levels and are working together in fun and engaging ways. I will share dozens of lessons using music to motivate and manage students, ideas for adapting lessons to meet the needs of students with special needs, assessment tips, time and classroom management strategies, low-cost or free resources you won't want to miss, positive play and cooperative activities to promote full inclusion, tips for teaching foundational gross motor skills, and much, much more!

Don't miss this unique opportunity to participate in a high-energy seminar that encourages maximum participation in physical education for all students. You will leave with 101 strategies and activities you can use immediately in your physical education program.

Sincerely,

Carrie Flint

P.S. This is not a “bells and whistles” seminar, but rather a **“practical, doable solutions and strategies” seminar to make the most of your PE time with students.**

“I developed this seminar for all PE teachers who are looking for innovative ways to create inclusive programs where students are actively participating at their own skill levels and are working together in fun and engaging ways.”
