Dear Colleague:

If you're like many educators today, you're working tirelessly to meet the diverse needs of your students – and you're likely wondering how to make your RTI program more efficient, effective, and equitable. You're not alone.

This **two-day, strategy-packed institute** is designed specifically for educators and school teams who are already implementing RTI and are ready to take it to the next level. Together, we'll explore ways to strengthen your existing program by focusing on what matters most: using **data to drive decisions, improving Tier 1 instruction**, and providing **targeted, research-based interventions** that help students thrive.

Throughout the institute, we'll dive into the **Collective Responsibility, Focused Instruction, the four Types of Assessment, and Guaranteeing Access to interventions** – a framework that has transformed outcomes in schools across the country. You'll leave with tools, strategies, and resources to:

- **Design high-quality core instruction** that proactively reduces the need for interventions
- **Identify learning goals and success criteria** that guide focused, intentional instruction
- **Implement effective small-group supports** at Tiers 2 and 3
- **Build a collaborative culture** where teams use evidence to make instructional decisions

I've had the privilege of supporting educators across the nation in strengthening their RTI programs, and I know firsthand the challenges – and opportunities – that come with this work. What we do matters, and when we get it right, we change lives.

If you're ready to lead with clarity, build your team's capacity, and ensure every student receives the support they need to succeed, I hope you'll join us. I look forward to learning and growing alongside you.

Warm regards,

Kelly Harmon

P.S. Be prepared to take back **practical strategies and ideas you can use immediately** to increase the effectiveness of RTI in your school(s).
