A Message From Seminar Leader, Christi Gilbert

Uniquely Qualified Instructor

CHRISTI GILBERT is an innovative and experienced ESL teacher, ESL content area specialist, and outstanding presenter. Her background includes decades of K-8 classroom experience. Throughout her career, she has stayed true to her mission for working with challenging students, including ELL students with many different educational and historical challenges. The methodologies and ideas she presents empower all students and focuses on acceleration and assets over remediation and deficits. She is noted for her enthusiasm, her attention to research-informed practices, and her love for her students is obvious in her seminars. Christi is the author of *Improve Your ELL's Students' Learning Using Multisensory Vocabulary Instruction*, the extensive digital resource handbook each participant will receive at the seminar. Her presentations are clear, fast paced and activity packed. You will leave with a wealth of new ideas you can easily use in your own ESL, academic support, push-in, or co-taught classrooms. Join Christi for a fun day filled with many practical ideas to help all your ELL students find greater success and confidence in your classroom.

Dear Colleague:

If you are like me, you feel strongly for that ELL student in your classroom, struggling daily to keep up with content understanding and literacy growth. No matter what you try, nothing seems to connect their native language intelligence with successful academic performance in English. You have tried somewhat helpful curriculum-based strategies, but those skills alone have not effectively helped your student to harness all the ideas contained in academic language and transfer them into their own functional use. You know in your heart that academic vocabulary knowledge and skills can unlock success for this student, but you need a better path to get there.

This unique one-day seminar provides just that! I am prepared to share with you a variety of highly practical strategies you can use immediately to enable your ELL students to better understand the content and concepts you are teaching. Accessing multisensory learning skills and a focused approach to word meaning will help your students improve their reading and listening comprehension and foster longer term memory retention. This seminar is designed to give you practical strategies you can use in your classroom immediately.

Please join me for a day packed with powerful ways to get your ELL students working at their full potential. I look forward to meeting you at the seminar and sharing our passion for teaching young English learners!

Sincerely,

Christi Gilbert

P.S. **My entire emphasis will be on PRACTICAL strategies you can immediately implement with your own ELL students!**

"I am prepared to share with you a variety of highly practical strategies you can use immediately to enable your ELL students to better understand the content and concepts you are teaching."

What Your Colleagues Say About Christi Gilbert
