"Great seminar covering so many different aspects of diagnosing and treating CAS. I loved the video examples, as well."

— ANNA MAZAHERI, SLP

ASHA CEUs AVAILABLE

Ten Key Benefits of Attending

"This was a wonderful seminar. I have taken away so much wonderful information that will help me as a school-based SLP."

– JULIA PEREZ, SLP

Who Should Attend

School-Based Speech-Language Pathologists
Serving Grades PreK-8
Students With Childhood
Apraxia of Speech

1. Differentiate Between CAS and Other Speech Disorders

Recognize the characteristics of CAS ... Understand what the differences are between CAS, articulation, a severe phonological disorder, and dysarthria

2. Learn Practical Therapy Approaches and Techniques for Children with CAS

Learn the most effective, evidence-based treatment approaches for CAS such as Dynamic Temporal and Tactile Cueing (DTTC), as well as effective treatment techniques including visual, tactile and kinesthetic cues to help the child with motor planning deficits

3. Discover the Most Effective Assessment for CAS

Learn what areas should be assessed and what assessment tools are available for differentiating CAS from other speech disorders ... Laura will provide case studies and examples for review and practice

4. Improve Your Ability to Determine Appropriate Services for Children with CAS

Students with CAS may also present with a concomitant language disorder or learning disabilities that can be confounded by a CAS diagnosis ... Learn how CAS may impact students' learning ... Learn how strategies and techniques for CAS such as multi-sensory cueing can also help students academically in reading and writing

5. Expand Your Understanding of the Principles of Motor Learning

Understand what the principles of motor learning are and why they are important in making treatment decisions for children with CAS to more quickly improve motor planning, and thus intelligibility of your students

6. Review Case Studies to Assist in a Differential Diagnosis

Through discussing case studies with your colleagues, gain a better understanding of how to diagnose CAS

7. Discover Creative Avenues to Increase the Intensity of Your Intervention

Research suggests that frequent and intense practice is needed for success when working with students with CAS ... Explore avenues to increase this intensity without overburdening your caseload

8. Maximize Your Students' Time During Treatment

Learn how to target the speech motor sequences for your students for greater success ... Therapy ideas to save you valuable time

9. Discover What Resources are Available for CAS

Explore the resources available for professionals and parents to increase understanding and keep abreast of the most current information regarding CAS

10. Receive an Extensive CAS Digital Resource Handbook to Expand Your Therapy Tool Kit

Receive a detailed CAS digital resource handbook that includes resources, references, and instructions on how to utilize these powerful assessments and therapy techniques

Outstanding Strategies You Can Use Immediately

What You Will Learn ...

- **Evidence-based techniques and therapy protocols** for working successfully with students with CAS
- Specific ways to **identify the differences between CAS, phonological and articulation disorders, and dysarthria** and how to more effectively help your students improve their speech production
- **Key elements of a dynamic assessment** for CAS ... How to recognize the characteristics of CAS
- How to **interpret assessment results** and directly apply them to create treatment plans
- Identify **appropriate therapy targets** that facilitate motor learning and support functional communication
- How to use diagnostic information to **craft meaningful and targeted goals** to address speech motor planning
- **Comorbid diagnoses** that may accompany CAS
- **Creative avenues** to increase the frequency and intensity of intervention
- **The principles of motor learning** and why they are important in making treatment decisions for students with CAS
- Practical, **usable therapy techniques** to improve the intelligibility of speech for children with CAS

"Amazing presentation with a lot of passion! I appreciate the practical applications, personal experiences and all of the resources."

– KELLY FARMER, SPEECH-LANGUAGE PATHOLOGIST

Practical Ideas and Strategies

Childhood Apraxia of Speech (CAS) is a lifelong neurological speech disorder that requires assessment and therapy techniques beyond what is needed for other speech disorders. By knowing what to assess and specific procedures for treatment, your students with CAS will produce more intelligible speech faster.

LAURA BASKALL SMITH, a speech-language pathologist and internationally recognized speaker with a special interest in CAS and specializing in the assessment and intervention of childhood motor speech disorders, has specifically designed this seminar for school-based SLPs working with grades PreK-8 students.

This one-day seminar will help you better understand CAS as a motor planning disorder. Learn how to provide a differential diagnosis and to inform treatment goals for CAS using your assessment data. Explore assessment protocols and how the principles of motor learning are woven through treatment approaches and techniques. Share ideas and practice assessment and treatment strategies through video examples. **Join Laura for a fast-paced day full of the most up-to-date, research-based information on CAS and receive an extensive digital resource handbook full of techniques, ideas, and strategies you can implement immediately.**

A Message From Seminar Leader, Laura Baskall Smith

Uniquely Qualified Instructor

LAURA BASKALL SMITH is an experienced speech-language pathologist specializing in the assessment and treatment of children with motor speech disorders. She has worked as a school-based SLP, private practitioner, consultant, and supervisor. Laura is the recipient of the 2016 American Speech-Language Hearing Media Award for garnering nationwide awareness for Childhood Apraxia of Speech (CAS). Her passion for the field gained new heights when her daughter was diagnosed with CAS at the age of three. Laura is a highly sought-after presenter on the topic of CAS and enjoys sharing her unique knowledge and perspective as both an SLP and parent to a child with multiple speech and language disorders. She is the author of *Overcoming Apraxia* (Bowker, 2019), a memoir on the family experience when a child has CAS. Laura is also the author of *CHILDHOOD APRAXIA OF SPEECH: Practical Treatment Strategies for More Intelligible Speech (Grades PreK-8)*, the extensive digital handbook you will receive at the seminar. **Join Laura for a fast-paced day full of the latest evidence-based techniques and therapy protocols for working successfully with students with CAS.**

Dear Colleague:

I was a practicing school-based SLP for many years before my firstborn child was diagnosed first with a speech delay and then with Childhood Apraxia of Speech (CAS).

No amount of schooling could have prepared me for the parent experience and the stress that comes with having a child diagnosed with a severe speech/language disorder like CAS. Determined to help my daughter, I went on an exhaustive quest to specialize in CAS, a quest that definitively changed the course of my professional career. A quest that has led me here, presenting to you on this complex, complicated, and fascinating disorder!

I'm so excited to be presenting to you on my passion: Childhood Apraxia of Speech! In our day together, my goal is to provide you with the most up-to-date and research-based information on the diagnosis and treatment of CAS. I also hope to convey the personal impact of severe speech/language disorders on the student and their family to equip you to better serve your students with CAS.

As an experienced SLP, I know firsthand the unique challenges of high caseloads, deadlines, paperwork, and service delivery in the schools. That's why everything I present will be highly practical – practical strategies, techniques, and activities – all of which you can implement immediately. It's my goal that you leave feeling renewed, empowered, and reminded of the incredible service you offer to the students you work with – the gift of communication.

Join me for a day full of the latest research-based information on CAS to help this distinct and special population.

Sincerely,

Laura Smith MA CCC-SLP

Laura Baskall Smith, MA, CCC-SLP

P.S. This seminar will provide real-life illustrations and video examples of strategies and activities that you can implement the very next day in your therapy.

"In our day together, my goal is to provide you with the most up-to-date and research-based information on the diagnosis and treatment of CAS."

What Your Colleagues Say About Laura Baskall Smith

"I've attended many seminars on apraxia and this by far was the most helpful for me. I loved that I was able to ask questions and get direct feedback right away. I feel that I am more comfortable now than I have been with treating students with CAS."

– Laurie Schweitzman, Speech-Language Pathologist

*"Laura was **high energy**, passionate, and amazing!"*

– Kristin Giggelman, Speech-Language Pathologist

*"Laura included **so much insight from her personal and professional experiences**. It was an excellent mix and included tips I'll use tomorrow in therapy!"*

– Nancy Johnson, Speech-Language Pathologist

*"Great seminar! Learned lots of valuable information about assessment and treatment, and **walked away with many practical resources to utilize** for both!"*

– Amanda Maali, Speech-Language Pathologist

*"So many take-aways that will help guide my assessment and treatment. **Great resources, materials, and content in general!**"*

– Emily DeFazio, Speech-Language Pathologist

About BER Seminars

Outstanding Instructors

All programs are led by outstanding, top-rated BER national trainers.

Extensive Digital Resource Handbook

You'll receive an extensive digital Resource Handbook full of practical strategies and resources.

Highly Interactive

You'll be able to ask questions, consult with the instructor, and share ideas with other participants.

Program Guarantee

As we have for 49 years, we guarantee the high quality of our programs. If you are not satisfied, we'll give you a 100% refund.

Special Benefits of Attending

"Learned an exponential amount. The handbook is a super added bonus."

— ERIN JOHNSON,
M.S., CCC-SLP

On-Site Training

Most BER seminars can be brought to your school or district in-person or online. See the options at www.ber.org/onsite or call 877-857-8964 to speak to one of our On-Site Training Consultants.

Extensive Digital Resource Handbook

You will receive an extensive digital resource handbook giving you access to countless strategies. The handbook includes:

- How to diagnose CAS and assessments to assist in determining if CAS is present
- Sample treatment goals and ways to use assessment results to inform your treatment goals
- Ways to identify appropriate therapy targets that facilitate motor learning
- Easy-to-implement treatment strategies for grades PreK-8 students with CAS
- How to use principles of motor learning to first promote acquisition and then carryover
