## CAN'T ATTEND?

Order the recorded version  
and take the seminar online at  
your convenience (see page 6)

*Great seminar, useful info,  
well-planned,  
and hands-on.*

— CRISTINA MINGIONE, OT

# Ten Key Benefits of Attending

*"This was very helpful. I learned more than I expected and am very excited to put AI to work in my practice!"*

– JENNIFER MAHOVLICH, OT

## Who Should Attend

School-Based Occupational  
Therapists Serving  
Grades K-12

### 1. **AI Tools That Save Time on Your OT Administrative Tasks**

Discover AI tools that help you streamline your documentation, goal writing, progress monitoring, and communication—freeing up more time for working with your students

### 2. **Boost Your OT Therapy Productivity**

Learn practical ideas to integrate AI in ways that maximizes your session time, enhances your quality of intervention, and improves workflow efficiency

### 3. **Enhance Student Engagement and Behavior with Interactive AI Tools**

Explore how AI can be used to motivate and sustain student participation and better behavior in your OT therapy sessions through interactive, personalized AI tools that are high interest to students

### 4. **Provide Better Support for Differentiation and Individualization**

Use AI to quickly create individualized learning experiences tailored to each student's strengths, needs, and learning style

### 5. **AI Tools to Foster Student Independence and Confidence**

Gain strategies to use AI tools that promote student self-direction, organization, and confidence in therapy and academic settings

### 6. **Improve Your IEP and OT Case Management Processes**

Learn how to use AI for writing more accurate, measurable goals, analyzing data, and composing legally sound paperwork more efficiently

### 7. **Enhance Clinical Decision-Making with AI Insights**

Use AI to help you identify trends in student performance, select interventions, and make more informed, data-driven therapy decisions

### 8. **Enhance Your Collaboration with Families and Staff**

Leverage AI to improve communication, create user-friendly reports, and more easily share resources with caregivers and school teams

### 9. **Build Confidence in Emerging Tech**

Gain hands-on exposure to cutting-edge, school-friendly AI tools in a supportive environment—perfect for all levels of AI users

### 10. **Leave with a Comprehensive Digital Handbook Filled with Ready-to-Use AI Tools and Resources for Your School-Based OT Practice**

Leave with a digital handbook full of ready-to-use tools and templates that you can implement in your OT practice the very next day

# Outstanding Strategies You Can Use Immediately

## What You Will Learn ...

- **Use AI to quickly create customized** fine motor, sensory, or visual-motor activities based on individual goals
- Input student needs and let AI generate **measurable, standards-aligned IEP goal statements**
- Paste long evaluation reports into AI to **create clear, parent-friendly summaries**
- **Prompt AI to design personalized visual schedules** for students who need support with transitions
- **Generate home carryover activity suggestions tailored** to student strengths and Family routines
- **Ask AI to design progress-monitoring charts** or Google Sheets templates for tracking data
- **Use AI to rephrase technical documentation** into plain language for families
- Create student-friendly therapy room expectations and posters using **AI-generated visuals and language**
- Prompt AI to **break down life skills into step-by-step task analyses** for student instruction
- **Quickly generate age-appropriate self-assessment checklists** aligned with therapy goals
- **Draft concise, professional emails** and follow-up messages with AI support
- **Build OT lesson plans** that align with classroom activities using AI tools
- **Use AI to outline SOAP notes** based on session summaries
- Translate handouts, instructions, and communication into **multiple languages** with AI
- **Create personalized social stories** that support student behavior and self-regulation
- Rewrite classroom assignments to **accommodate visual-motor or sensory needs**
- Build skill-based rubrics for **handwriting, executive functioning, or self-care progress**

*"Excellent training with so much useful information."*

– KAREN WEIR, OT

## Practical Ideas and Strategies

If you're a school-based occupational therapist juggling endless documentation, individualized plans, and student engagement, this **NEW** seminar, led by national presenter **KAMI BIBLE, OTR/L, MBA**, is for you. With over 25 years of experience in school-based OT, teletherapy, and clinical leadership, Kami brings a wealth of practical insight and real-world strategies to this engaging, hands-on seminar where you will learn how to use the power of AI to transform your therapy practice. Imagine cutting your paperwork time in half, creating more personalized resources in minutes, and using dynamic tools to boost your students' motivation, confidence, and independence. Designed with practicality in mind, this seminar provides real tools you can start using tomorrow. Whether you are tech-savvy or brand new to AI, you'll leave energized and inspired to use your comprehensive digital AI handbook packed with ready-to-use resources. This is an interactive experience designed to help occupational therapists work smarter, not harder.

# A Message From Seminar Leader, Kami Bible

## Uniquely Qualified Instructor

**KAMI BIBLE, OTR/L, MBA** is an outstanding occupational therapist, national presenter, and author. She is a practicing school-based OT and teletherapist who shares only the best, student-proven therapy strategies that she has used with her students and teachers. Kami will share dozens of tech tools that will work perfectly with the students you serve and will also help you to work smarter, not harder. Kami is known for her passion, high-energy and strategy-packed ideas!

Dear Colleague:

Between managing large caseloads, preparing sound documentation, coordinating with teams, and trying to keep students better engaged, our time and energy are often stretched thin. Throughout my decades-long career as a school-based occupational therapist, I've had the honor of working in both brick-and-mortar schools and virtual classrooms, leading therapy departments, managing clinical teams, and presenting nationwide on topics related to school-based OT and technology integration. Over time, I've learned how technology, and now artificial intelligence tools, can dramatically enhance how we serve our students. That's exactly why I created this **NEW** seminar on using AI tools for school-based Occupational Therapists!

In this interactive and energizing workshop, I'll guide you through practical ways to use AI tools that are simple, effective, and ready to implement immediately. Whether you're hoping to streamline your documentation, better differentiate student supports, create more customized materials in just minutes, or bring fresh energy to your therapy sessions, this seminar will deliver. You'll also receive a comprehensive digital AI handbook filled with ready-to-use tools, templates, and examples you can bring back to your school-based OT practice the very next day.

You don't have to be tech-savvy to benefit— this course is built for busy therapists who want real solutions, not more work. My goal is to help you save time, reduce paperwork stress, and increase your impact. Let's harness the power of AI together to work smarter, not harder, and to help our students thrive in today's learning environment. I hope you'll join me for this exciting opportunity to learn, connect, and leave inspired.

Warmly,

Kami Bible, OTR/L, MBA

**P.S. AI won't do your school-based OT therapy for you— but it can make it feel a whole lot easier!**

*"Whether you're hoping to streamline your documentation, better differentiate student supports, create more customized materials in just minutes, or bring fresh energy to your therapy sessions, this seminar will deliver."*

# What Your Colleagues Say About Kami Bible

***"This was very helpful and I'm so glad I took the class. I can definitely apply this in my work, and I'm walking away wanting to learn more."***

– Marilyn Henry, OT

***"Quite eye-opening. I learned more about the use of AI today than ever before. I'm optimistic I'll succeed at using it in my work more often."***

– Angela Guardiano, OT

***"Kami was a really great instructor with great information. She was able to explain information in a simple way for better understanding."***

– Haley Ochoa, OT

***"Loved Kami's overall energy, organization, visuals, and presentation. It was helpful that she practiced the content as she went through the material, to give you a feel of actually doing it—thus feeling more confident to put it into practice right away."***

– Nina Reiten, OT

## About BER Seminars

### Outstanding Instructors

All programs are led by outstanding, top-rated BER national trainers.

### Extensive Digital Resource Handbook

You'll receive an extensive digital Resource Handbook full of practical strategies and resources.

### Highly Interactive

You'll be able to ask questions, consult with the instructor, and share ideas with other participants.

### Program Guarantee

As we have for 49 years, we guarantee the high quality of our programs. If you are not satisfied, we'll give you a 100% refund.

# Special Benefits of Attending

"This was a very informative seminar and I will definitely be using AI more in my everyday."

– CHRISTINE MUCCINO,  
CERTIFIED OT ASSISTANT

## On-Site Training

Most BER seminars can be brought to your school or district in-person or online. See the options at [www.ber.org/onsite](http://www.ber.org/onsite) or call 877-857-8964 to speak to one of our On-Site Training Consultants.

## Extensive Digital Resource Handbook

Each participant will receive an extensive digital resource handbook specifically designed to give you quick access to countless strategies. The digital handbook includes:

- "Learn it today – use it tomorrow" AI-enhanced assessment, intervention, generalization tools and resources for OTs working in schools
- AI tools and resources specifically for supporting and increasing the success of OT therapy sessions
- Innovative OT therapy strategies using AI to increase and maintain engagement and motivation for a variety of learners across ages
- Strategies and directions to automate daily OT tasks which formerly consumed too much of your time
