A-4: Debriefing: Seizing the Teachable Moment When Misbehavior Occurs

– Julie Compton

In the classroom where restorative practices are the focus, misbehavior is a teachable moment; the learner is active and the learning relevant. Few view problem behaviors as an opportunity to teach vital social and life skills. Learn a simple strategy to teach in response to troublesome behaviors, as they occur, and to restore relationships, and help students become successful as you create a more restorative environment in your classroom.

A-5: Breaking Conflict Cycles With Angry Students – MaryAnn Brittingham

Anger comes from a variety of places, most of which are not even found at school. Some students have anger always simmering below the surface. Once educators can understand the student’s perception, they can help students see the patterns that lead to the release of that anger, so it can more effectively be interrupted. Through our response to an angry student, we can simultaneously help them identify the real cause while we provide the necessary support to result in an outcome that breaks the conflict cycle.
