- Multiple ways to naturally **scaffold your Third Graders' learning**
- **Support ideas for your students** as they work toward common objectives and goals
- New scaffolds and supports for developing **essential Third Grade skills**

'This school year has been exhausting and your seminar really helped me refocus on my 'why.' I truly appreciate your guidance and facilitation!'

Practical Ideas and Strategies

This **NEW**, engaging and interactive seminar will provide innovative techniques for strengthening the learning of your Third Graders in refreshed, highly effective ways whether online or in-person. **Tammy Musiowsky** will share with you cutting-edge strategies, tools and technology to enhance Third Graders' learning, showing you dozens of engaging strategies to catch up your Third Graders that have fallen behind and to help all your Third Graders master skills in literacy, math, science and social studies.

This highly practical seminar focuses on today's most up-to-date routines, protocols and strategies to increase student engagement and learning in Third Grade. With the changing landscape in education, it's essential to learn how to integrate skills and content. Explore how the latest free technology resources can easily be integrated into any learning experience in the Third-Grade classroom. See how technology and digital media throughout all subjects can be used to motivate and engage your Third Graders.

You'll leave this jam-packed day with new ideas, fresh insights and innovative teaching strategies you can use immediately to support your Third Graders. An extensive Third Grade resource handbook and access to Tammy's e-resources will guarantee to give you new ways to enhance student engagement and learning in your Third Grade classroom.

A Message From Seminar Leader, Tammy Musiowsky

Uniquely Qualified Instructor

TAMMY MUSIOWSKY is an innovative presenter and highly engaged educator with extensive teaching experience in Third Grade. Having served as a Third Grade classroom teacher, instructional coach and international educator, adviser and consultant, her interests as well as her expertise, lies in finding innovative and relevant ways to engage all third-grade students in their learning processes. Motivated to stay on the cutting-edge of what's most useful and meaningful in practical educational resources, Tammy is passionate about helping third grade teachers discover the most innovative strategies and ideas to enhance their students' success.

Noted for the practicality and interactive nature of her presentations, Tammy focuses on what works best for Third Grade teachers. Her seminars provide ready-to-use strategies, protocols and tools that can be used immediately in all third grade classrooms. Tammy is the author of *Cutting-Edge Strategies for Increasing Learning in THIRD GRADE*, the extensive digital resource handbook each participant will receive. You won't want to miss this day filled with fun, engagement and a wealth of practical information that will boost your approach to teaching third grade students.

Dear Colleague:

I love third graders! They are independent, yet still need guidance. They get excited to dig into learning and, sometimes, they even understand my jokes! Each year brings a wide range of learners and while this could sometimes be a challenge, it reignites my drive to do whatever I can to meet the unique needs of all my third graders! Providing students with highly engaging, highly effective learning experiences is a goal I'm sure we share.

When we need tools to support our students, we cannot waste valuable time sifting through endless tech tools and resources. That is too overwhelming. How then do we best enhance the skills of our Third Graders, reduce the "COVID gap", and make learning meaningful while using the most appropriate strategies and technology resources? Join me for a day focused on Third Graders and let me sort through which resources actually **enhance** learning rather than create more challenges.

Here are some of the ideas and actions we will unpack:

- How to implement the most appropriate "bang for your buck" strategies and tools for Third Graders' learning
- How to create classroom environments that increase student communication and collaboration while reducing behavior issues
- How to infuse the most engaging technology tools into the content areas to increase your students' engagement
- How to scaffold thinking to develop your Third Graders' thinking and reasoning skills
- How to catch up Third Graders that have fallen behind
- New, classroom-tested methods that increase Third Graders' reading, writing, listening and speaking skills
- Ways to improve and enhance future-ready skills in all of your students

During our idea-packed and interactive day, we will focus on **practical** ways to take your teaching and learning to the next level with your Third Graders. You will have a variety of techniques, tools, protocols and resources to pick and choose from as you consider what you want to add to your teaching tool bag. I will model quick, simple and structured resources to increase your Third Graders' engagement and learning in literacy, math and the content areas.

Join me for a day of fun focusing on new, practical strategies to use tomorrow in your Third-Grade classroom. We will focus on intentional practices and resources you can begin to use the very next day whether you're teaching in-person or online.

Sincerely,

Tammy Musiowsky

P.S. You will leave this seminar with a **new way of looking at what can be accomplished with students and a wealth of practical strategies** that can be immediately implemented in your classroom or virtual learning environment the next day.

What Your Colleagues Say About Tammy Musiowsky

*"The effort and time that Tammy has invested **definitely has a very positive impact** and will help us a lot in the future."*

*"**Tammy's energy, authenticity and knowledge about third graders is the perfect combination!** I can't wait to implement the new tools I've just acquired!"*

*"**Tammy is clearly a caring educator!** Her focus is on student centered, realistic strategies."*

About BER Live Online Seminars

With the current health challenges, all BER in-person PD events are currently being presented in a Live Online format:

Outstanding Instructors

All programs are led by outstanding BER national trainers

Extensive Resource Handbooks

You'll have access to an extensive digital Resource Handbook before, during and after your seminar

Highly Interactive

You'll be able to ask questions in real time and interact with the instructor and other participants

Program Guarantee

As we have for 43 years, we guarantee the high quality of our programs. If you are not satisfied, we'll give you a 100% refund.

Special Benefits of Attending

'This is the most practical, actionable set of strategies I have ever received in a training!'

On-Site Training

Most BER seminars can be brought to your school or district in-person or online. See the options at www.ber.org/onsite or call 877-857-8964 to speak to one of our On-Site Training Consultants.

Extensive Digital Resource Handbook

Each participant will receive an extensive digital resource handbook giving you access to countless strategies before, during and after the seminar. The handbook includes:

- Strategies, protocols, and tool suggestions to increase Third Graders' engagement and learning of Reading, Writing and Math skills whether you're teaching in-person or online
- Suggestions and ideas for integrating the most appropriate technology tools for Third Grade students
- Numerous free digital resources for Third Graders to use to enhance Science and Social Studies learning
- Concrete ways to scaffold partner and group work that teach Third Graders how to collaborate effectively
- Specific lesson ideas for meaningful integrated learning experiences

Share Ideas with Other Educators

This seminar provides a wonderful opportunity for participants to share ideas with other educators interested in cutting-edge strategies for third graders.

Consultation Available

Tammy Musiowsky will be available to answer your specific questions and the unique needs of your own program.

Meet Inservice Requirements / Earn State CEUs

Participants of both the Live Online Seminar and those completing the Recorded Version online can receive a certificate of participation that may be used to verify five continuing education hours. In addition, state CEUs are available for both versions of the course. For details, visit www.ber.org/ceus
