Dear Colleague:

Response to Intervention is an exciting strategy schools across the nation are using to prevent students from failing by identifying and meeting their needs earlier and more efficiently. I have worked with dozens of schools and districts to develop and refine their RTI programs and I am excited to facilitate this two-day institute to help you and your team improve your RTI program.

We will discuss how school teams can better collaborate to make the RTI process more efficient and effective. I will share practical tips and techniques for enhancing Tier 1 instruction to reduce the number of students needing interventions. We will look at strategies to organize your interventions to include intensive, systematic and multi-level instruction for Tiers 2 and 3. Most importantly, you will gain strategies to help lead your team to better practices in the classroom and strengthen their collaborative skills to work together for all students.

If you are currently using RTI and want to enhance and refine what you are doing, you won't want to miss this opportunity! I look forward to meeting you and helping you address the challenges you are experiencing in your current RTI program.

Sincerely,

Kelly Harmon
