She is enthusiastic,
Knowledgeable and
approachable. Great ideas!*

– CINDY PISCHNER, MEDIA SPECIALIST

Ten Key Benefits of Attending

'Tricia was great. Very knowledgeable about Makerspaces and so friendly!'

CARRIE DODGE, LIBRARIAN

1. Practical and Easy Ways to Incorporate Makerspaces that Will Transform Your Library

Dozens of ideas, strategies and resources to help you create or enhance Makerspaces in your library ... Cost-effective and innovative strategies you can use immediately!

2. Learn Tips and Tricks From Those Who Have Successfully Created Makerspaces

Learn from the experience of others who have created outstanding Makerspaces in their libraries ... Discover what worked and what didn't, saving yourself time and money

3. Numerous Cost-Efficient Ideas to Help You Maximize Your Time and Resources

You don't have to start from scratch and spend hours of time planning – use what you already have and add to it along the way ... Tricia will show you how!

4. Develop Makerspaces that Support Essential 21st Century Learning Skills

Makerspaces go beyond fun by building an environment where creating, collaborating, critical thinking, and communication are essential

5. Create Makerspaces that Meet the Needs of Your School and Community

Discover how to conduct a needs assessment to help you design Makerspaces that will play a vital role in your school and community

6. Boost STEAM Skills with Makerspaces

Learn how Makerspaces support and reinforce Science, Technology, Engineering, Art, and Math skills

7. Stretch Your Budget and Use Existing Resources

While some Makerspace materials can be high tech and high cost, many awesome Makerspaces require extremely inexpensive materials that you probably have in your library or school

8. Make Time for Makerspaces

In an already busy schedule, how can you possibly implement this great new practice? Let's talk about what others are doing and what might work best for you

9. Reach NEW Users for the Library

Because Makerspaces are so completely engaging, students who may have avoided the library in the past will suddenly appear to use the Makerspaces and to check out what else the library has to offer

10. Receive an Extensive Makerspace Handbook

Leave with a resource handbook filled with the newest ideas, strategies, and tips for creating and enhancing library Makerspaces

Who Should Attend

School Librarians,
Public Librarians, Media
Specialists, Library Aides,
Resource Teachers, and
Administrators Serving
Grades K-12

Outstanding Strategies You Can Use Immediately

What You Will Learn ...

- **Dozens of ways to develop** an inviting, thriving library environment with Makerspaces
- How to **get started or enhance** your existing Makerspaces
- **The hottest trends in Makerspace creation** and how you can use them in your library

- Current research to see what is being done, **what's working, and what's not**
- Curriculum objectives to **clarify what Makerspaces are** and why they are important for administrators, colleagues, students, and parents
- Ideas for **inexpensive Makerspaces**
- Use Makerspaces to **boost STEAM skills** for every student
- Ideas to **make sure your Makerspaces challenge students** to higher-order thinking
- **Best practices, tips and tricks** from successful Makerspace creators
- Make your library more inviting for all students using **innovative Makerspaces**
- How the library media specialist is indispensable in **the Makerspace revolution**
- Time and **money-saving tips** and strategies
- Greatly enhance your library with Makerspaces – **ideas you can use!**

"Wonderful! So many great ideas were shared. I can't wait to use them in my library."

– KATELYN GILROY, LIBRARIAN

Practical Ideas and Strategies

This exciting seminar has been designed to help strengthen library programs through engaging Makerspaces. Using Makerspaces meets the following needs:

- Provides access and opportunity to use a variety of tools and technology
- Emphasizes the 4 Cs of 21st Century Learning: collaboration, creativity, critical thinking, and communication
- Aligns with curriculum to extend and enhance classroom instruction
- Allows for STEAM activities and experiences
- Turns libraries into spaces for absorbing and creating knowledge

Tricia Kuon, an award-winning librarian, will share how to develop an inviting, thriving environment where students can create and learn from each other. Tricia will provide you with numerous cost-efficient ideas to help you maximize your time and resources. Communicating with your stakeholders, locating inexpensive resources, and maximizing your library space are just a few of the topics that will be discussed. Whether you have existing Makerspaces in your library or are new to the idea of offering Makerspaces, you are sure to find a wealth of ideas in this powerful one-day seminar!

Join Tricia for an inspiring day filled with practical tips that will give you the tools you need to develop or enhance your own Makerspaces. As an added benefit, you will receive a comprehensive resource handbook that has been specifically designed for this seminar, filled with outstanding ideas to help you get started with Makerspaces in your library or to enhance your current library Makerspaces.

A Message From Your Seminar Leader, Tricia Kuon

Uniquely Qualified Instructor

Tricia Kuon is a highly experienced and award-winning library media specialist, author and national presenter. She is known for her passion for Makerspaces, books, technology and most importantly, students! You will find her seminar packed with energy, inspiration and dozens of strategies you can immediately use in your own library program. She is the author of *MAKERSPACES: Creating Motivating, Engaging Work Spaces for Your LIBRARY*, the extensive resource handbook you will receive at the seminar. **You won't want to miss this exciting day filled with strategies to get you ready to implement Makerspaces in your own library that are timesaving and budget friendly!**

Dear Colleague:

Like many of you, I had become accustomed to the idea of being the school's official book person and technology guru who helped students and teachers find books and resources while providing new technologies. This Makerspace concept was new to me. I was worried about many issues and questions that could arise:

What is it? Why am I doing it? Is this just playing? Why are we playing in the library? What will the students learn? Is it messy? Is it loud? Why am I doing something messy and loud in the library? Will the students like it? Will the teachers and administrators like it? How much will it cost? How do I justify the expense?

Determined not to let my fears stop me, I began with two to three activities my first week of using Makerspaces. Within a month, I had added about 20 possible activities and that number continued to grow rapidly over time.

What I discovered was amazing! Students needed Makerspaces. Makerspaces allow for engaged, creative, enthusiastic learning without all of the pressure and anxiety that accompanies most school learning. My Makerspace is so popular, inviting and wonderful that I cannot imagine my library without it. As my Makerspace grew, my understanding of Makerspaces, how to use them, why to use them, and the many significant educational benefits that come with their use has been a revelation. Libraries have been thought of as places for storing knowledge for centuries. Makerspaces allow libraries to be spaces for creating knowledge as well.

In this seminar, we will explore Makerspaces together, looking at how to use them, why to use them, and the many significant educational benefits that come with their use. We will also discuss the importance of the library transforming in accordance to the educational needs of students and how that transformation makes librarians increasingly indispensable. Mostly, we will engage, create, collaborate, and explore.

Whether you work in an elementary, middle, or high school, or public library, this seminar will provide you with the motivation, strategies and resources to start up your own successful Makerspace or enhance your existing library Makerspace.

Sincerely,

Tricia Kuon

P.S. This seminar will focus on **practical, budget-friendly ideas** that will have you establishing thriving Makerspaces in your library!

'...we will explore Makerspaces together, looking at how to use them, why to use them, and the many significant educational benefits that come with their use.'

What Your Colleagues Say About Tricia Kuon

*"I appreciate the manner in which Tricia presented the information – with humor and true excitement. The **links, software and hardware recommendations and the hands-on activities** are wonderful. I cannot wait to share this information with my school and faculty."*

Shawn Weisser, Teacher-Librarian

*"Tricia gave some **very practical ideas** on how and why to get started using Makerspaces. Very encouraging!"*

Rhonda Meadows, Teacher

*"This seminar was **informative and just plain fun!** Tricia is a very engaging presenter!"*

Ann Ferruggia, SLMS

*"So many ideas! I loved the hands-on setup where we got to experience maker activities. **I'm leaving very inspired** to conquer the Makerspace world."*

Brooksie Kramer, Librarian

*"This seminar met and exceeded my expectations. I **can't wait to get back to my library** and start a Makerspace."*

Laura Light, Librarian

*"Thank you for sharing your ideas and creating a warm environment for the day. The **handbook will be a great resource** as we continue on our Makerspace journey."*

Tess Brooke, Kindergarten Teacher

*"Completely useful! Great hands-on illustrations. Easily **one of the best professional development sessions** I've attended."*

James Owens, Librarian

*"This seminar was a **truly eye-opening experience!** Not only did I get some amazing, creative ideas, but I learned it really is okay to think outside the box and make mistakes. Tricia is amazing!"*

Cassandra Baldwin, Librarian

*"Tricia is an excellent presenter! Loved her knowledge and **passion for libraries.**"*

Ginny Husak, Librarian

Special Benefits of Attending

Online Learning

BER offers educators a wide range of online courses that are affordable, fun, fast, and convenient. BER is now offering On Demand Video-Based courses. You may earn optional graduate-level credits for most courses. See the catalog of available courses at www.ber.org/online

On-Site Training

Most BER seminars can be brought to your school or district. See the options at www.ber.org/onsite or call 877-857-8964 to speak to one of our On-Site Training Consultants.

Can't Attend? Other Professional Development Options:

Related Online Course

A related On Demand Video-Based Online Learning course, *MAKERSPACES: Creating Motivating, Engaging Work Spaces for Your Library*, for Grades K-12, is available for immediate registration. To enroll, visit www.ber.org/online

Related Professional Development Audio Seminars

Two related BER seminars, *What's NEW in Children's Literature and How to Use It In Your Program: 2019 (Grades K-6)*, presented by Judy Freeman (**Stock #A-BJ9-2164**), and *What's NEW in Young Adult Literature: 2019 (Grades 6-12)*, presented by Shauna Yusko (**Stock #A-BU9-2164**), are available on CDs. Both come with a comprehensive resource handbook at a cost of \$125.00 each plus \$9.00 shipping and handling per audio program; for *WA State deliveries, please add 10% sales tax to the total amount*. To order, call toll-free 1-800-735-3503 or use the order form on page 7.

Electronic versions of both Judy and Shauna's seminar and handbook are available in MP3 and PDF format for immediate download on our website, at the cost of \$99.00.

Please visit www.berproducts.org/audio-seminars/library.html for more information.

Extensive Resource Handbook

Each participant will receive an extensive resource handbook specifically designed for this seminar. The handbook includes:

- Practical techniques and strategies for planning, establishing and enhancing Makerspaces in a school or public library
- Numerous ideas for low-cost or inexpensive Makerspaces
- Specific ways to create engaging Makerspaces to enhance creativity and strengthen STEAM skills
- Ways to generate support and resources for Makerspaces

Meet and Share

This seminar provides a wonderful opportunity for participants to meet and share ideas with other educators interested in creating Makerspaces in their libraries.

Meet Inservice Requirements / Earn State CEUs

Participants will receive a certificate of participation that may be used to verify continuing education hours.

CEUs Available:

Oregon

- OR Professional Growth Hours Verification Available
- WA STEM Clock Hours Available

Utah

- UT Inservice Credit Available with District Approval

Washington

- WA STEM Clock Hours Available
- ID Inservice Credit Available with District Approval in Spokane
- MT Renewal Units Available in Spokane

Earn One to Four Graduate Semester Credits

Up to four graduate level professional development credits are available with an additional fee and completion of follow-up practicum activities. Details for direct enrollment with Brandman University, part of the Chapman University system, will be available at this program.
