CEUs and Graduate Credit Available  
See page 6 for details

#### CAN'T ATTEND?

Order the recorded version and take the seminar online at your convenience (see page 6)

# Ten Key Benefits of Attending

"Tons of great ideas! A very organized presentation from a very knowledgeable presenter."

– KIM CLARK

## 1. Learn Practical and Easy Ways to Incorporate Library Centers and Makerspaces that Will Transform Your School Library

Dozens of ideas, strategies and resources to help you create and enhance library centers and makerspaces in your library ... Cost-effective and innovative strategies you can use immediately!

## 2. Learn Timesaving Tips and Tricks

Learn from the experience of others who have created outstanding student work stations in their school libraries ... Discover what worked and what didn't, plus proven techniques and examples from exemplary library stations and makerspaces from across the country

## 3. Increase the Effectiveness and Impact of Your School Library Program

Specific strategies for enhancing library centers and makerspaces to increase the effectiveness and impact of your school library

## 4. Maximize Your Limited Time and Resources

You don't have to start from scratch and spend hours of time planning ... Use what you already have and add to it along the way ... Crystal will show you how!

## 5. Support the Creativity and Collaboration of AASL Standards and 21st Century Learning Skills

Learn proven ways to go beyond student engagement to build environments rich in creation, collaboration, critical thinking, and communication

## 6. Reinforce Literature Connections

Deepen student engagement with books and authors when students are actively learning at library centers and makerspaces

## 7. Making Time for Makerspaces and Library Centers

Discover strategies for creating time for makerspace exploration during your library's busy schedule ... Practical strategies for making makerspaces and library centers function efficiently within your busy day

## 8. Making Space for Everything

Yes, you can keep your books and provide access to the learning tools your students need to succeed, and have fun doing it! ... Identify strategies for organizing your learning centers to fit, no matter how big (or small) your space is

## 9. Stretch Your Budget

Discover budget-friendly items that you already have on hand or can buy inexpensively, as well as the higher cost items that you'll want to add to your library wish list

## 10. Receive an Extensive Library Centers and Makerspaces Handbook

Leave with a resource handbook filled with the newest ideas and strategies for creating and enhancing your school library centers and makerspaces

### Who Should Attend

School Librarians, Media Specialists, Library Aides, and Administrators Serving Grades K-12

# Outstanding Strategies You Can Use Immediately

## What You Will Learn ...

- **The latest ideas for library centers and makerspaces** and how you can use them in to enhance your current library program
- **Time-management and organizational strategies** to maximize library center use
- **How library centers and makerspaces** can help with behavior management
- **Make connections** to reading with library centers and makerspaces
- **Ways to meet the AASL standards** for creativity, communication and collaboration with library centers and makerspaces
- **Dozens of library center and makerspace ideas** you can use right away
- **How to create library centers and makerspaces** that work for multiple grade levels, saving you time
- **Creative ways to teach students to collaborate** through makerspace activities
- How to use **design-thinking to help your students succeed** academically
- How to most **effectively use volunteers and student helpers**
- Ways to **challenge students to use higher-level thinking skills and to boost creativity** with a variety of makerspace activities

*"A very well-paced day. I loved the balance between videos, instruction, discussion, and activities."*

– FRANCESCA MELLIN

## Practical Ideas and Strategies

In this seminar, experienced school librarian, author and blogger, **CRYSTAL TRICE**, will share how you can develop a more engaging and dynamic library space and schedule that encourages students to create, collaborate and extend their learning in your library. Gain many cost-effective ideas you can use right away. Learn how to locate inexpensive resources, maximize your library space and tie learning centers to literature. Whether you are already using library centers and makerspaces or are new to these strategies, you will leave with a wealth of new ideas!

Join Crystal for an inspiring day filled with practical tips that will give you the tools you need to develop or enhance your own library centers and makerspaces. **You will also receive a comprehensive resource handbook that has been specifically designed for this seminar, filled with outstanding ideas to help you get started with or to enhance your current library centers and makerspaces.**

# A Message From Seminar Leader, Crystal Trice

## Uniquely Qualified Instructor

**Crystal Trice** is an award-winning school librarian and frequent state and national presenter. With experience as both a School Librarian and Youth Services Librarian, she brings a depth of knowledge and practical experience to her presentations. Crystal blends library expertise and a passion for sharing practical ways educators can add creative spark within their school libraries. Crystal is known for her inspirational message, budget-friendly ideas, and innovative ways for creating outstanding makerspaces and learning centers. In addition, she is the author of *LIBRARY CENTERS/MAKERSPACES: Creating More Engaging Learning Spaces in Your School LIBRARY*, the extensive resource handbook you will receive at the seminar. Crystal's seminars are exciting, fun, practical, and packed with creative ideas you can use right away. Join her for a day filled with the most effective, easy-to implement ideas to help you create or enhance motivating and engaging makerspaces and library centers in your school.

Dear Colleague:

I had library centers and a makerspaces in my school library before I knew to call them that. Students could come to the library and create things using markers, scissors and glue. They used these simple materials to prototype iPad apps, create public service announcements, and teach each other drawing skills. There was a loud outcry on days I happened to run out of paper!

In recent years, more and more school libraries have developed extensive library centers and makerspaces, providing a place for their students and community to collaborate, design and learn together. I have researched and studied the best examples in order to provide you with the best, current strategies and practical ideas to enhance your own library program.

At this seminar, we will examine existing library centers and makerspaces together. We will learn what worked for them (and what didn't!). We will also discuss how to energize your stakeholders and leaders for the project, how and where to gather creative materials inexpensively, and how to create a project plan that will maximize the space and time you have available. We will also examine the educational benefits of makerspaces and library centers, the importance of rules within your creative environment, and ideas that can fit a variety of budgets.

The bottom line is, your library centers and makerspaces should be purposeful, meaningful and support your school or community needs. I have designed this seminar to show you just how you can accomplish these goals. I will show you examples of outstanding library center and makerspace ideas and activities that are easily replicated in any school library. I will also share timesaving tips and ideas and how to effectively use volunteers to keep your library space functioning smoothly and with minimal time and effort.

Whether you work in an elementary, middle, or high school library, this seminar will provide you with the motivation, strategies and resources to start up or enhance your own successful makerspace and library centers.

Sincerely,

Crystal Trice

**P.S. This seminar will focus on practical, budget-friendly ideas that will help you quickly establish or enhance thriving library centers and makerspaces in your library.**

*"I have researched and studied the best examples in order to provide you with the best, current strategies and practical ideas to enhance your own library program."*

# What Your Colleagues Say About Crystal Trice

---

*"Crystal did a fantastic job demystifying makerspaces. **I feel confident that I will be up and running immediately.**"*

– Valerie Lisa Grammer

---

*"**Excellent, inspiring and extremely helpful.** I am empowered to tackle makerspaces in my own school."*

– Kari Therrien

---

*"An extremely well researched and organized seminar. Excellent materials, activities, examples, and presentation. A great mix of activities that provide students with many choices. I took away **so many ideas including things I want to do immediately as well as things I can do for many years to come!**"*

– Tanya Hubbard

---

*"This seminar was fantastic, **full of wonderful ideas and resources** to make makerspaces a reality!"*

– Julie Darling

---

*"So many practical ideas that I can use right away. **Crystal helped me understand the concept of makerspaces so much better.**"*

– Krista Pedersen

---

*"I really loved this training! There were **so many great things I am excited to try** with my students."*

– Lulu Perez

---

*"This was a great, creative seminar. Crystal did a super job, offering **many, ready-to-use, take-home-now ideas.**"*

– Steven Rice

# Special Benefits of Attending

"Crystal gave us many useful ideas. Her handbook is full of additional ideas. What a terrific resource!"

- BARB DINNAN

## On-Site Training

Most BER seminars can be brought to your school or district in-person or online. See the options at [www.ber.org/onsite](http://www.ber.org/onsite) or call 877-857-8964 to speak to one of our On-Site Training Consultants.

## Extensive Makerspaces and Library Centers Resource Handbook

You will receive an extensive makerspaces and library centers digital resource handbook giving you access to countless strategies. The handbook includes:

- Practical techniques for planning, establishing and enhancing library centers and makerspaces in your school
- Ideas and activities easily replicated in any school library
- Real-life examples from successful school libraries to inspire you
- Numerous ideas for low-cost library centers and makerspaces
- Specific literature connections for your library centers and makerspaces
- Ways to use your library centers and makerspaces to advocate for your library program

**For in-person seminars, registrants will also receive a printed copy of the resource handbook as long as their registration is received in the BER office at least 15 calendar days before the event.**

## Consultation Available

Crystal Trice will be available to answer your specific questions and the unique needs of your own school library program.

## Meet Inservice Requirements / Earn State CEUs

Participants of In-Person and those completing the Recorded Version online can receive a certificate of participation that may be used to verify five continuing education hours. For details about state CEUs available, visit [www.ber.org/ceus](http://www.ber.org/ceus)

## Earn One to Four Graduate Semester Credits

Up to four graduate level professional development credits are available with an additional fee and completion of follow-up practicum activities. Details for direct enrollment with Brandman University, part of the Chapman University system, will be available at this program.

## Can't Attend?

### Other Professional Development Options:

#### Recorded Version of the Seminar

A video recorded version of this seminar will be available to take online at your convenience. You'll have access to the entire course and to the extensive digital resource handbook. Optional CEUs and graduate credit available.

To enroll, see registration form on page 7.

#### Related On-Demand Online Courses

A related On Demand Video-Based Online Learning course, *MAKERSPACES: Creating Motivating, Engaging Work Spaces for Your Library*, for Grades K-12, is available for immediate registration. To enroll, visit [www.ber.org/online](http://www.ber.org/online)

*For purchases in WA State on Recorded Seminars and On-Demand courses, please add 10.1% sales tax to the total amount.*
