Dear Colleague:

Do you remember hiding under the covers in bed and reading with a flashlight when you were younger? That thrill has remained with me since I first learned to read. We all have the same mission today – to inspire young minds to fall in love with reading – to hide under their own blankets to finish reading that perfect book. We know that when we read with engagement, students are pulled into that reading zone where another world is entered, and time stands still.

Every year I eagerly await the award-winning and honored book titles. But equally exciting is when the buzz begins immediately afterward about the new books being published. I love the anticipation of new titles by familiar authors, and eagerly looking forward to new standout authors and illustrators. What will the new trends be in Children's Literature? What new characters will come on the scene? Which books will make your students urge you to "Read it again!" Which books will you be able to combine with your superpower of getting kids excited to make lasting impressions? The really great part is I'm excited to share all sorts of practical answers to these questions and more with the best books of 2022!

Children's books, from the time I was very young, have been a passion of mine, and I've been privileged enough to turn this passion into a career. The best part of that, of course, is sharing books with students. But equally exciting, is getting to share terrific books with adults that will eagerly take them back and share them with students. That's you! Prepare for a day full of enthusiastically exploring the best, new titles, authors, illustrators, teaching strategies, tools, and resources – perfect for your students!

I have presented on the best children's books for many years and am thrilled to be able to bring this all-new seminar to you! I am excited to share with you the very best of these titles, and ideas that I have successfully used to excite my own students about reading, that you can also use in your program. You will leave knowing dozens of new books perfect for your grades K-6 students, and terrific ideas for using them in your classroom or library program.

Sincerely,

Christina Dorr

P.S. Prepare to laugh, cry, and be amazed at these new titles! I look forward to meeting you at the seminar!

"Prepare for a day full of enthusiastically exploring the best, new titles, authors, illustrators, teaching strategies, tools, and resources - perfect for your students!"
