and Administrators

Outstanding Strategies You Can Use Immediately

What You Will Learn ...

- **Dozens of strategies to help students who have or may have dyslexia** successfully read, write and spell – whether you are teaching in-person or online
- **What dyslexia is and isn't**
- **Activities and strategies** that strengthen the phonological (sound) processing system – a brain area that is often weak in children with dyslexia
- **How to strengthen four major literacy areas** that are typically weak in children with dyslexia
- **Spelling strategies** that help students with dyslexia read, as well as write and spell
- **Understand how to better assess** students for dyslexia
- **Classroom activities and the latest information** for strengthening the brain pathways critical to reading, writing and spelling success ... Implications for our work with students with dyslexia and other reading challenges
- **Instructional techniques** that help all students learn, but are especially supportive for students with dyslexia and reading impairments
- **How to help struggling readers** move from “pretend reading” or “word calling” to a laser-sharp focus on words and the letters and patterns that form them
- **Outstanding research-based teaching techniques** and tools for reinforcing and strengthening your students’ reading, writing and spelling proficiency in grades K-6
- **Current assessments**, including screeners, that help teams diagnose the complex condition of dyslexia
- **Ways you can craft effective, practical solutions** to the challenges students with dyslexia experience while reading, writing and spelling
- **Practical and impactful strategies** you can easily incorporate into your existing literacy instruction and program – whether you are teaching in-person or online – you need not re-invent the wheel!

'Awesome! This was the best dyslexia workshop I have ever been to!'

– ASHLEIGH FERGUSON, TEACHER

Practical Ideas and Strategies

In this live online seminar, you will receive powerful instructional techniques, research-based strategies and many classroom activities all designed to support the success of students with dyslexia. The focus will be on best practices for strengthening the literacy skills of students with dyslexia – whether you are teaching in-person or online. Gain a wealth of practical strategies for boosting reading, writing and spelling achievement, and increasing students’ confidence. Drawing on cutting-edge research and fMRI brain studies, this seminar will explore how and why dyslexia develops, and present a wealth of practical strategies, techniques and activities you can use to help activate and strengthen specific reading, spelling and language circuits in the brain. **Enhance your instruction and help your students who have or may have dyslexia experience success in reading, writing and spelling.**

A Message From Your Seminar Leaders, Mark Weakland and Marsha Geller

Uniquely Qualified Instructors

MARK WEAKLAND is an outstanding educator, author and national presenter. An experienced special education teacher and reading specialist, he has worked extensively with children diagnosed with dyslexia or thought to have dyslexia. As a reading consultant and instructional coach, Mark understands the realities and challenges that teachers face as they strive to help children with reading impairments. **Mark's seminars are practical, inspiring, and filled with strategies, activities and teaching techniques you can use immediately to help students with dyslexia and ALL students become better readers, writers and spellers.**

MARSHA GELLER is an experienced special education teacher and engaging presenter with more than 30 years of experience working with students with dyslexia. She has prepared classroom teachers, special educators, reading specialists, speech-language pathologists, and private clinicians to work successfully with their students with dyslexia. She also maintains a private practice working directly with students with dyslexia. **You will leave her seminar inspired, encouraged and filled with a wealth of new strategies to help all your students gain the skills they need to become successful readers.**

Dear Colleague:

Helping students who struggle can seem especially daunting. Fortunately, research exploring the connections between cognition, brain structure and learning clearly shows us how reading works in the brain, why some children develop reading impairments and dyslexia, and most importantly, what we can do to support and accelerate the learning of students who have dyslexia.

In this dynamic day, we want to equip you with practical tips and ideas that focus and enhance the instructional techniques, learning strategies and classroom activities you use in your literacy program to support students who have or may have dyslexia. All the strategies we will share not only help these students to build better functioning neural pathways, but can help all of your readers to excel and achieve.

The knowledge, strategies, activities, and assessments you gather in this live online seminar will help you teach and empower students with dyslexia to be more successful readers, writers and spellers – whether you are teaching in-person or online. And because we know firsthand that teachers are some of the busiest people in the world, everything we present is practical and time efficient.

We look forward to spending the day with you, exploring how to maximize your instruction so it supports children with dyslexia, while strengthening the learning of your typically developing students. Now, more than ever, science has shown us how to help children with reading impairments. New understandings about how the brain works have given us an opportunity to reexamine literacy and its component parts. How fortunate we are to have this opportunity. We look forward to meeting you at the seminar!

Sincerely,

Mark Weakland

Marsha A. Geller

P.S. The job you do is so very important. Investing a day with us will give you knowledge, strategies and activities that can make a real difference in the reading, writing and spelling lives of your students with dyslexia.

"In this dynamic day, we want to equip you with practical tips and ideas that focus and enhance the instructional techniques, learning strategies and classroom activities you use in your literacy program to support students who have or may have dyslexia."
