A Message From Seminar Leader, Heather Kenny

Uniquely Qualified Instructor

HEATHER KENNY is an outstanding educator and presenter. Over the course of her 25-year career in education, she has served as a classroom teacher and dyslexia tutor. Heather works closely with schools and districts to support teachers in implementing practical, science-based instructional techniques that can improve literacy outcomes for students with dyslexia. Heather understands the challenges that today's educators face as they strive to address the needs of all readers. She is passionate about empowering teachers with knowledge and skills so that they are well-equipped to provide their students – particularly those who fit the profile of dyslexia - with optimally-effective literacy instruction.

Dear Colleague:

As teachers, we are charged with providing our students with the strong foundation of literacy skills that they need in order to be successful in school and in life. But any experienced educator knows that it is no easy task! We've all worked with students who have had difficulty learning to read and spell ... even despite our best efforts to teach them. Happily, it does not have to be this way.

Thanks to new research findings, we now understand how reading occurs in the brain, why some students experience such difficulty in learning to read, and how we can help students with dyslexia build efficient neural pathways that are required for reading success. Perhaps the best news of all is that the highly effective, research-based techniques that are recommended for students with dyslexia, are the same techniques that can accelerate the literacy development of *all* of our learners!

Over the course of my career, I have amassed a wealth of highly practical information, resources, strategies, tips, and techniques that can help you optimize your literacy instruction. I am excited to spend the day with you and with other reading educators, talking about the science of reading and sharing teacher-friendly, time-efficient strategies that you can take back to your classroom to help your dyslexic students thrive.

I look forward to meeting you at the seminar!

Sincerely,

Heather Kenny

P.S. As an experienced educator, I understand the unique challenges you face daily in your instruction. This seminar is designed to give you and your students with dyslexia a **pathway to greater success!**

"...I have amassed a wealth of highly practical information, resources, strategies, tips, and techniques that can help you optimize your literacy instruction."
