“ *One of the best seminars I’ve attended! An enormous amount of ideas and activities to implement with little or no cost.* ”

– ELAINE JAMES,
READING INTERVENTIONIST

Practical Strategies

Are you looking for tools to help you better understand and address the specific needs of your struggling readers? In this highly engaging, practical seminar you will gain a wealth of ideas and resources to diagnostically assess, intervene and monitor the progress of your struggling readers. You will learn how to use targeted interventions with “on the spot” teaching tools that work with any reading program. This seminar provides evidence-based interventions you can use immediately that target each reader’s specific needs. You will learn how to use current research and best practices to increase instructional rigor and support critical thinking while addressing the unique needs of your struggling readers. Throughout this action-packed day, you will be given dozens of timesaving ideas to differentiate instruction and actively engage students in activities that accurately target their specific needs. In this fast-paced, highly practical seminar, **Kristen Large**, a full-time reading specialist, will energize your teaching and renew your sense of purpose. The entire day will be filled with powerful strategies you can use in your classroom tomorrow with students who experience the greatest challenges in learning to read.

Dear Colleague:

I feel fortunate that in my career as an educator I have had the opportunity to serve in a variety of roles that support students, fellow teachers and parents. As a reading specialist, I have had the opportunity to work with my teaching colleagues to coordinate effective reading programs and to support learning both in the classroom and in the intervention setting. However, my most rewarding experiences have come from my time as an interventionist working with struggling readers. My passion for teaching is renewed each time a child feels the joy of success.

As someone who works with students on a daily basis, I am excited by the progress my students are making. I see the gains my students make, the confidence they build in themselves as readers and the ways in which practical, targeted interventions can effectively prevent students from falling too far behind. It is my pleasure to share a wealth of ideas, tools and techniques to target and meet the needs of your most struggling readers.

Throughout this fast-paced day, I will provide you with practical, efficient and effective reading strategies that can be implemented in any instructional setting. We will focus on how phonemic awareness, phonics, vocabulary, comprehension, and fluency impact your students' achievement. All of these highly effective interventions will work with any reading program you are currently using! In addition, I will share manageable data collection systems that will help you keep track of your students' progress in order to maximize their learning time.

Please join me for a high-energy day filled with practical strategies, activities, tips, and tools you will be eager to implement in your classroom. I look forward to sharing this day with you!

Sincerely,

Kristen Large

P.S. You will leave with an **extensive resource handbook and free downloadable materials** filled with “go-back-and-do” ideas and strategies to help target and significantly increase the reading achievement of your struggling readers.

“ *It is my pleasure to share a wealth of ideas, tools and techniques to target and meet the needs of your most struggling readers.* ”
