

Catching Up Students Who Have Fallen Behind in MATH

(Grades 6-12)

A Unique One-Day Live Online Seminar Presented by

Brad Fulton

Outstanding Educator and National Presenter

Specifically Designed for Middle School and High School General Mathematics, Pre-Algebra and Algebra Teachers, Geometry Teachers, Math Interventionists, Instructional Aides, and Administrators

Learn **practical strategies to get students back on track** and up to speed quickly and efficiently whether teaching online or in-person

Great strategies to **reinforce and resurrect skills** that have atrophied over the COVID gap

How to layer multiple skills and standards into one lesson to **accelerate learning**

Help students self-assess their work to **lessen your burden and increase their fluency**

Live Online Seminars

April 15

9 AM Eastern, 8 AM Central,
7 AM Mountain, 6 AM Pacific

April 16

9 AM Pacific, 12 PM Eastern,
11 AM Central, 10 AM Mountain

April 26

9 AM Eastern, 8 AM Central,
7 AM Mountain, 6 AM Pacific

April 27

9 AM Central, 10 AM Eastern,
8 AM Mountain, 7 AM Pacific

CAN'T ATTEND?

Order the recorded version and take the seminar online at your convenience (see page 6)

CEUs and Graduate Credit Available
See page 6 for details

Ten Key Benefits of Attending

'Brad was so well-informed. He gave us detailed applications to put into effect in our classrooms. He reminded me of our purpose as math educators!'

Who Should Attend

Middle School and High School General Mathematics, Pre-Algebra and Algebra Teachers, Geometry Teachers, Math Interventionists, Instructional Aides, and Administrators

- 1. Practical Strategies to Maximize Lessons Whether Working Online or In-Person**
Learn how to you pack more into each lesson without overloading the students ... Use multiple skills and math strands simultaneously to reinforce learning and sharpen your Grades 6-12 students' math skills
- 2. Powerful 5-Minute-a-Day Strategies to Help Students Master Key Math Facts and Fraction Operations**
Hands-on, kinesthetic approaches to teach integers that will prepare and help your students be more successful in algebra ... Classroom-proven strategies you won't want to miss!
- 3. Hone Students' Algebra and Geometry Skills**
Using clever, classroom tested, activities to increase engagement in math learning for your Grades 6-12 students ... Integrate algebra, geometry, number sense, and more in powerful lessons that will strengthen their fluency
- 4. Get the Highest Return on Your Instructional Time**
Learn how to best invest your instructional time to get a high return ... Discover must-know strategies to align your instructional minutes for maximum effect
- 5. Learn Powerful Ways to Accelerate Your Instruction for Grades 6-12 Students Whose Math Skills Have Lagged**
Whether it's the COVID gap, summer break, an extended absence, or just a lack of skills, these classroom-tested and student-success strategies will help your Grades 6-12 students catch up
- 6. Reduce Your Time Grading Papers**
Put more assessment into the hands of your Grade 6-12 students so they work more efficiently with fewer errors ... Free yourself from correcting papers all evening!
- 7. Connect with Powerful, Free Online Resources**
Gain access to dozens of free, ready-to-use resources, lessons and activities that are proven to work well with your struggling math students in grades 6-12
- 8. Receive New, Updated Resources that Increase the Effectiveness of Skills Practice**
The top three innovative activities that reinforce critical numeracy skills ... See how easily these activities are adapted across a wide range of grade levels and abilities
- 9. Learn More Efficient Strategies for Teaching and Solving Challenging Algebraic Problems**
Help students extend their learning in arithmetic and number sense so they can better factor polynomials, solve combined work problems, and more!
- 10. Receive an Extensive Digital Resource Handbook**
Each participant will receive a comprehensive digital resource handbook filled with dozens of valuable resources, strategies, ready-to-use tips, and tools to implement highly effective math lessons for your students who have fallen behind in math, whether you are teaching in-person or online

Outstanding Strategies You Can Use Immediately

What You Will Learn ...

- **Practical strategies to make a dramatic difference** for your students whose math skills have atrophied, whether you are teaching online or in-person
- How to utilize **self-assessment techniques to increase their learning** and free you to more meaningful work
- Teach students strategies to **solve difficult problems with algebra**
- **Visual approaches** to teach fractions, decimals, percent, and algebra using a geometric model
- How to use **conceptual layering** to teach students to multiply and factor polynomials
- Strategies to present algebra in a **brain-friendly format that will engage students**
- **Connect with online videos** that can provide instructional support for students in distance learning environments or in-person instruction
- Simple and engaging strategies for powerful skill practice **usable online or in-person**
- **Dozens of practical strategies for helping your struggling students** develop math fluency with fractions, multiplication, and algebra
- Fun, motivating ideas for **teaching numeracy skills**
- **Help your struggling students** get up to speed – show them the way to get back in the game!
- Gain dozens of **instructional activities** to connect with your lagging learners
- **Web resources** including free resources, lessons, and activities

"I found this seminar very helpful. It provided me with strategies and practices I can implement into my classroom now. I also like the use of breakout groups to be able to discuss the content in smaller groups."

Practical Ideas and Strategies

Whether it's COVID, summer break, an extended absence, or even a history of struggles in math, students fall behind. And in these trying times, your workload has increased even more. In this **NEW** seminar by outstanding Grades 6-12 Math teacher, **Brad Fulton**, you will learn how to:

- Catch up students who've fallen behind in math
- Maximize Grades 6-12 students' math learning
- Cover key standards more effectively
- Keep your workload under control

In this activity-rich seminar, Brad will share his classroom-tested techniques that have proven successful in catching up students who have fallen behind in math. Brad's collection of activities, strategies and tools are formatted for both live classroom and distance learning. From struggles with their multiplication facts and fractions to solving challenging algebra problems, you'll learn more effective ways to get quick results. Whether you are trying to get your students up to grade level or trying to get them across the graduation stage, these activities can help you and your students achieve their goals. Come and learn the strategies and techniques that have helped students who've fallen behind in math find success.

A Message From Seminar Leader, Brad Fulton

Uniquely Qualified Instructor

BRAD FULTON is a highly experienced mathematics educator with over 30 years of teaching experience and was chosen as a Teacher of the Year in his state. He is known throughout the United States for his motivating and engaging presentations that are filled with easy-to-teach, yet mathematically rich activities for busy teachers. He is a frequent presenter at conferences and schools in addition to being a classroom teacher. He has co-authored over a dozen books, hosts a website that provides free math resources, and is the author of *Catching Up Students Who Have Fallen Behind in Math (Grades 6-12)*, the extensive digital resource handbook you will receive at the seminar. You won't want to miss this day with Brad to discover how you can more successfully meet the needs of students who struggle in math and give them the confidence to tackle math and accelerate their progress!

Dear Colleague:

As a fellow educator, I have spent well over 30 years searching for the best strategies for helping struggling students accelerate their Grades 6-12 math skills, and I'm glad to say that these students can find success in math! In these challenging times, your minutes matter. More is being asked of you every year, and many students are coming to your class lacking skills they should have gained previously.

I can show you ways to alleviate your workload without sacrificing results. In fact, you'll get better results! You'll notice that your work is more reasonable, and your students will see that their skills are improving. I'm going to show you the unique and easy strategies that get them back in the game and up to speed as quickly and efficiently as possible.

I'll share the best-of-the-best of my classroom-proven strategies, valuable for either in-person or online teaching. I'm still using these strategies in the classroom every day, so I'm going to show you what is working for me and will work for you.

By our morning break you will want to race back to your classroom and share these techniques with your own students. But then you'd miss all the cool ideas to come throughout the day. I hope you'll take time out of your busy schedule to join me in this seminar. You'll find the investment of your time will yield big results for your students and take some of the burden off of your busy shoulders. I can't wait to get started in helping you catch up your students who've fallen behind!

Sincerely,

Brad Fulton

P.S. I guarantee you will **leave this seminar re-energized and armed with ready-to-use tools and strategies** that will make a tremendous difference for your math students who have fallen behind, whether teaching in-person or online.

"By our morning break you will want to race back to your classroom and share these techniques with your own students."

What Your Colleagues Say About Brad Fulton

*"Many **interesting strategies** for various grade levels!"*

*"Loved this practical PD! **Brad came prepared with his own experiences, colleague's experiences, and strategies that I could implement in my classroom tomorrow.** I also admired the overall philosophy of the strategies: student ownership and exploration. I am really excited to explore these with my students."*

*"**Excellent for all levels!** I wish some of our elementary teachers had come."*

*"Brad was a fantastic, engaging instructor and discussion leader. **It's clear that he has a love for the subject, his students, and sharing** how the strategies are applicable across grade levels and even disciplines."*

About BER Live Online Seminars

With the current health challenges, all BER in-person PD events are currently being presented in a Live Online format:

Outstanding Instructors

All programs are led by outstanding BER national trainers

Extensive Resource Handbooks

You'll have access to an extensive digital Resource Handbook before, during and after your seminar

Highly Interactive

You'll be able to ask questions in real time and interact with the instructor and other participants

Program Guarantee

As we have for 43 years, we guarantee the high quality of our programs. If you are not satisfied, we'll give you a 100% refund.

Special Benefits of Attending

'Brad gave us activities ready to use in the classroom. I particularly liked the ones that help students factor polynomial.'

On-Site Training

Most BER seminars can be brought to your school or district in-person or online. See the options at www.ber.org/onsite or call 877-857-8964 to speak to one of our On-Site Training Consultants.

Extensive Digital Resource Handbook

Each participant will receive an extensive digital resource handbook giving you access to countless strategies before, during and after the seminar. The handbook includes:

- Ready-to-use, classroom-proven math strategies for helping students get up to speed whether you're working at school or online
- Integrate multiple standards for more powerful learning
- Ideas for extensions and LOTS of links to FREE online resources
- Great activities for students who are missing critical content
- Specific strategies to accelerate student learning through "multi-stranding" and self-assessment

Share Ideas with Other Educators

This seminar provides a wonderful opportunity for participants to share ideas with other educators interested in catching up their Grades 6-12 students who have fallen behind in math.

Consultation Available

Brad Fulton will be available to answer your specific questions and the unique needs of your own program.

Meet Inservice Requirements / Earn State CEUs

Participants of both the Live Online Seminar and those completing the Recorded Version online can receive a certificate of participation that may be used to verify five continuing education hours. In addition, state CEUs are available for both versions of the course. For details, visit www.ber.org/ceus

Earn One to Four Graduate Semester Credits

Up to four graduate level professional development credits are available with an additional fee and completion of follow-up practicum activities. Details for direct enrollment with Brandman University, part of the Chapman University system, will be available at this program.

Can't Attend?

Other Professional Development Options:

Recorded Version of the Seminar

This course will be video recorded and available to take online at your convenience. You'll have access to the entire course and to the extensive digital resource handbook. Optional CEUs and graduate credit available.

To enroll, see registration form on page 7.

Related On-Demand Online Course

A related On Demand Video-Based Online Learning course, *Strategies for Promoting a GROWTH MINDSET to Increase Students' Perseverance, Engagement and Success in Your MATH Classroom*, for Grades 6-12, is available for immediate registration.

To enroll, visit www.ber.org/online

Catching Up Students Who Have Fallen Behind in MATH (Grades 6-12)

Registration (MBF1S1)

1. **April 15, 2021** (Start time: 9 AM Eastern)
2. **April 16, 2021** (Start time: 9 AM Pacific)
3. **April 26, 2021** (Start time: 9 AM Eastern)
4. **April 27, 2021** (Start time: 9 AM Central)
- or —
5. **I'd like to order the recorded version of this seminar**

FOUR EASY WAYS TO REGISTER:

 **REGISTER ONLINE** at: www.ber.org

 **FAX this form to: 1-425-453-1134**

 **PHONE toll-free: 1-800-735-3503**
(Weekdays 5:30 am - 4 pm Pacific Time)

 **MAIL this form to: Bureau of Education & Research**
915 118th Avenue SE • PO Box 96068
Bellevue, WA 98009-9668

Program Hours

- All Live Online seminars start times are described on the cover
- Check-in 15 minutes prior to the seminar
- Live Online seminars are five hours in length plus breaks
- Registrants will receive login information by email four days before their Live Online seminar

Fee

The registration fee is \$279 per person, \$259 per person for groups of three or more registering at the same time. Call us at 1-800-735-3503 for groups of ten or more. **Payment is due prior to the program.** Fee includes seminar registration, a certificate of participation and an extensive digital resource handbook. The fee is the same for Live Online Seminars or Recorded Seminars.

Cancellation/Substitutions:

100% of your paid registration fee will be refunded if you can't attend and notify us at least 10 days before the seminar. Late cancellations made prior to the event date will be refunded less a \$15 service fee. Substitutions may be made at any time without charge.

Program Guarantee

We stand behind the high quality of our programs by providing the following unconditional guarantee: If you are not satisfied with this program, we'll give you a 100% refund of your registration fee.

Further Questions

Call the Bureau of Education & Research (800) 735-3503 or visit us online at www.ber.org. The Bureau is North America's leading presenter of PD training for professional educators. Programs are based on sound research, are highly practical in content and consistently receive excellent evaluations.
