

Practical Strategies to Use GUIDED MATH to Strengthen Your Math Instruction (Grades K-3)

A Unique One-Day Live Online Seminar Presented by

Kelly Harmon

Outstanding Award Winning Teacher,
Author and National Presenter

**Specifically Designed for Classroom Teachers, Special Education Staff,
Title I Staff, and Other Educators Teaching Mathematics in Grades K-3**

Practical, classroom-proven ideas for enhancing your use of guided math whether you're teaching in-person or online

Ideal strategies for managing small, focused math instruction groups and independent math centers

Assessment strategies that provide the necessary data to group and teach students at their best instructional level

Math center ideas to engage your students in meaningful math work allowing you to teach small, guided math groups

Live Online Seminars

January 19

9 AM Central, 10 AM Eastern,
8 AM Mountain, 7 AM Pacific

January 20

9 AM Eastern, 8 AM Central,
7 AM Mountain, 6 AM Pacific

January 21

9 AM Mountain, 11 AM Eastern,
10 AM Central, 8 AM Pacific

January 22

9 AM Pacific, 12 PM Eastern,
11 AM Central, 10 AM Mountain

your convenience (see page 6)

CEUs and Graduate Credit Available
See page 6 for details

Ten Key Benefits of Attending

"I gained a lot of practical and useful information. Definitely worth my time!"

– KIM VALERA,
KINDERGARTEN TEACHER

Who Should Attend

Classroom Teachers, Special Education Staff, Title I Staff, and Other Educators Teaching Mathematics in Grades K-3

- 1. Strengthen Your Math Instruction Using Powerful, GUIDED MATH Strategies**
Discover classroom-proven strategies to strengthen guided math in your grades K-3 classroom ... Instructional techniques for creating an engaging math classroom online or in-person, organizing tips and establishing and maintaining independent math routines
- 2. Explore the Power of Small Group Guided Math Instruction**
Ideal grouping strategies for small group lesson plans to meet students at their instructional level, steps for reciprocal teaching, and how to develop procedural knowledge and procedural flexibility ... Scaffold your students' learning using small, focused guided math groups
- 3. What to Do with the Rest of Your Class While You Meet with Guided Math Groups**
Use independent practice activities and math stations that naturally differentiate for student needs ... Help your students learn to make choices based on their math learning goals ... Discover new math games and tech tools for math practice and fluency
- 4. Help All Your Students Achieve Grade Level Math Goals Online or In-Person**
Boost students' skills and understanding of number sense, basic facts, measurement, geometry, problem solving, and more ... Ideas to help your students meet grade level standards
- 5. Efficient and Effective Assessment Strategies to Group Students for Greater Results**
Minute-by-minute progress monitoring that will help you take immediate action to adapt instruction ... Unit and lesson planning tips based on assessments ... Help students set and track their own math learning goals and develop a growth mindset for math success
- 6. Utilize Research-Based Instructional Strategies**
Use what we know works to make learning stick ... How to incorporate the top, proven instructional strategies that will greatly increase student learning
- 7. Practical Guided Math Strategies to Differentiate Your Math Instruction**
Practical and doable strategies for implementing small, guided math instructional groups and math centers that build and reinforce your students' math skills at their best level of proximal development whether teaching online or in-person
- 8. Challenge Your Top Math Students While Addressing the Needs of Your Struggling Students**
How you can find time for pre-teaching, re-teaching and practice with students who need it the most while your highly capable math students are challenged with meaningful math work at their level
- 9. Explore the Power of Guided Math to Teach Problem Solving**
Today's rigorous standards call for students to develop a deep understanding of the relationship between various number concepts that will assist them in problem solving ... Explore proven strategies that enable students to understand and solve challenging problems with fluency, ease and confidence
- 10. Proven Guided Math Strategies to Help Students Process Key Math Skills and Concepts for Greater Understanding and Application**
Steps for implementing successful math talks along with key questioning strategies to help students examine math reasoning ... How to engage your students in math journaling, including drawing and writing about math whether teaching in-person or online

Outstanding Strategies You Can Use Immediately

What You Will Learn ...

- **Classroom-proven strategies** to organize and manage guided math groups and independent math centers
- Practical tips for **making guided math groups a powerful teaching strategy** for all ability levels, from struggling to highly capable
- How you can use guided math to **catch students before they fall behind** whether teaching online or in-person
- **Create anchor charts and tools** to provide multi-modality learning
- **Highly effective questioning strategies** to help students think through their reasoning
- Increase your students' math skills and **understanding of number sense, basic facts, measurement, geometry, and problem solving**
- **Develop a growth mindset** through student goal setting and self-evaluation whether learning online or in-person
- **Successfully engage students** in cognitively challenging math tasks
- **Develop meaningful, independent practice** that complements your whole group instruction
- **Integrate children's literature** into your math program and centers
- Realistic ways to **modify and differentiate your math centers** to maximize learning for each of your students
- **Unlock the power of small group instruction** to focus on the diverse needs of your students – from those who excel in math to those who struggle with basic math skills
- **Develop routines for math talks and math journaling** to deepen student understanding of math concepts

Practical Ideas and Strategies

In this highly practical seminar, **Kelly Harmon** will share a variety of guided math techniques, including how to plan and implement small guided math groups designed to better meet your students' needs – from those who excel in math to those who struggle with

basic math skills. You will learn the top, research-based instructional strategies that will help your students learn and retain key math skills and concepts, and how to transfer these skills to math problem solving. In addition, Kelly will give assessment ideas that will guide you in forming flexible and intentional small groups to better meet each student at their instructional level.

You will leave this outstanding seminar with renewed enthusiasm about teaching mathematics as well as a wealth of ideas for implementing guided math online or in-person.

Don't miss this unique opportunity to participate in this high-energy seminar that will leave you with dozens of strategies and ideas you can use immediately in your own math classroom.

A Message From Seminar Leader, Kelly Harmon

Uniquely Qualified Instructor

KELLY HARMON is an enthusiastic and engaging presenter who has a wealth of real teaching experience and practical strategies from many years as a classroom teacher, instructional coach and national consultant. She is the author of *Practical Strategies to Use GUIDED MATH to Strengthen Your Math Instruction (Grades K-3)*, the comprehensive digital resource handbook you will receive at the seminar. Her seminars are filled with ready-to-use teaching strategies and ideas that have been proven to work with students in grades K-3. Kelly's seminars are fast-paced, interactive and highly engaging. You will receive dozens of classroom-proven guided math strategies you can use to strengthen your math instruction and greatly increase all your students' mathematical understanding and achievement.

Dear Colleague:

Given the range of students' mathematical skills, we must know how to balance a variety of instructional models including whole group and direct instructional strategies, as well as small group lessons and interventions to meet individual student needs. When used correctly, guided math allows teachers to provide the necessary differentiated instruction that leads to success for all students. I am excited to spend a day together devoted to enhancing and strengthening your guided math program whether online or in-person. Join me to learn new ways to accelerate the math achievement of all your students.

During our day together, some of the topics we'll explore are:

- A wealth of highly effective, timesaving strategies to make guided math work in your classroom
- Outstanding ideas, ready-to-use math lessons and a variety of resources for assessing and teaching math skills and concepts in a guided math format
- What the rest of your students are doing while you work with small groups
- How guided math makes differentiation possible to better meet the needs of all your students
- Innovative, hands-on guided math strategies perfect for grades K-3 students
- Powerful ideas to teach writing in math and innovative math talk strategies

I am truly excited to offer dozens of ideas, tips and suggestions you can take back to your in-person or virtual classroom and immediately use to strengthen and enhance your math instruction using guided math. Please join me for a day that promises to be dynamic, fast-paced and packed with ideas to increase all your students' achievement in mathematics.

Sincerely,

A handwritten signature in cursive that reads "Kelly Harmon".

Kelly Harmon

P.S. You will receive an extensive digital resource handbook written specifically for this seminar. It is filled with all the strategies and ideas we'll discuss during our day together.

"I am truly excited to offer dozens of ideas, tips and suggestions you can take back to your classroom and immediately use to strengthen and enhance your math instruction using guided math."

What Your Colleagues Say About Kelly Harmon

*"Kelly was personable and connected easily with our group. Her instruction was **practical, powerful and easy to implement**. It was clear that she still understands what its like to be 'in the trenches' and I greatly appreciate her support!"*

– Megan Ringen, Teacher

*"Great seminar! Thank you Kelly, for your **upbeat personality** – you really made me think about how I teach!"*

– Nancy Reis, 1st Grade Teacher

*"Thank you! The support Kelly provided made all of her **strategies seem easy to implement**."*

– Jan Shaffer, K5 Teacher

*"Kelly is **very supportive** and provided ample resources."*

– Christine Hoang, Kindergarten Teacher

About BER Live Online Seminars

With the current health challenges, all BER in-person PD events are currently being presented in a Live Online format:

Outstanding Instructors

All programs are led by outstanding BER national trainers

Extensive Resource Handbooks

You'll have access to an extensive digital Resource Handbook before, during and after your seminar

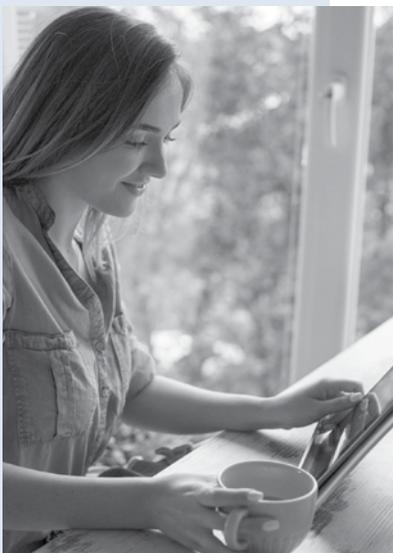

Highly Interactive

You'll be able to ask questions in real time and interact with the instructor and other participants

Program Guarantee

As we have for 43 years, we guarantee the high quality of our programs. If you are not satisfied, we'll give you a 100% refund.

Special Benefits of Attending

'Kelly's Knowledge base is incredible. She was very thorough in explaining the content and ensuring we understood before moving on to the next topic.'

JAMIE MARTIN, TITLE I TEACHER

On-Site Training

Most BER seminars can be brought to your school or district in-person or online. See the options at www.ber.org/onsite or call 877-857-8964 to speak to one of our On-Site Training Consultants.

Extensive Digital Resource Handbook

Each participant will receive an extensive digital resource handbook giving you access to countless strategies before, during and after the seminar. The handbook includes:

- Dozens of practical guided math strategies and how to use them both online and in-person
- How to group students efficiently
- Examples of math centers you can adapt to meet your needs
- Steps for student goal setting and action planning that include the math centers or stations they need to visit
- How to collect minute-by-minute data to determine which move to take next
- How to plan for scaffolding to mastery
- Elements of effective guided and independent practice

Share Ideas with Other Educators

This seminar provides a wonderful opportunity for participants to share ideas with other educators interested in enhancing their guided math program.

Consultation Available

Kelly Harmon will be available to answer your specific questions and the unique needs of your own program.

Meet Inservice Requirements / Earn State CEUs

Participants of both the Live Online Seminar and those completing the Recorded Version online can receive a certificate of participation that may be used to verify five continuing education hours. In addition, state CEUs are available for both versions of the course. For details, visit www.ber.org/ceus

Earn One to Four Graduate Semester Credits

Up to four graduate level professional development credits are available with an additional fee and completion of follow-up practicum activities. Details for direct enrollment with Brandman University, part of the Chapman University system, will be available at this program.

Can't Attend?

Other Professional Development Options:

Recorded Version of the Seminar

This course will be video recorded and available to take online at your convenience. You'll have access to the entire course and to the extensive digital resource handbook. Optional CEUs and graduate credit available.

To enroll, see registration form on page 7.

Related On-Demand Online Courses

Related On Demand Video-Based Online Learning courses, *Using Guided Math To Strengthen Students' Math Learning*, for Grades K-2 and other math-related courses, are available for immediate registration. To enroll, visit www.ber.org/online

Practical Strategies to Use GUIDED MATH to Strengthen Your Math Instruction (Grades K-3)

Registration (MUH1W1)

1. **January 19, 2021** (Start time: 9 AM Central)
2. **January 20, 2021** (Start time: 9 AM Eastern)
3. **January 21, 2021** (Start time: 9 AM Mountain)
4. **January 22, 2021** (Start time: 9 AM Pacific)
- or —
5. **I'd like to order the recorded version of this seminar**
