Practical Ideas and Strategies

Unfortunately, in the attempt to maximize academic gains in many schools, play in early education was pushed out or greatly reduced. However, research increasingly recognizes that a balance that includes purposeful play is vital for developing strong academic and social-emotional skills in young learners.

In this innovative and engaging seminar by **SHERI SUTTERLEY** you will learn proven strategies to make best use of purposeful play in your preschool or kindergarten classroom. Explore play as a foundation of readiness skills for literacy, a method to integrate STEAM through focused questioning and exploring, and an opportunity to build vital language and social skills. The focus will be on practical, age-appropriate strategies, materials and creative opportunities you can easily incorporate in your preschool or kindergarten program. **Join Sheri for this idea-packed seminar, filled with numerous practical strategies and ideas for increasing students' academic and social-emotional growth through purposeful play.**

A Message From Seminar Leader, Sheri Sutterley

Uniquely Qualified Instructor

SHERI SUTTERLEY is an exceptional kindergarten and preschool teacher. She regularly presents at early childhood conferences and has served as a mentor and master teacher throughout her extensive career. Sheri is particularly passionate about incorporating purposeful play without sacrificing high quality and effective instruction for preschool and kindergarten students. Sheri's seminars are filled with practical, classroom-tested, developmentally appropriate ideas for enhancing instruction and increasing the success of preschool and kindergarten students. She is also the author of *PURPOSEFUL PLAY to Increase Students' Academic Learning and Social-Emotional Growth*, the extensive resource handbook you will receive at the seminar. Sheri's love of teaching our youngest students is captivating and she enjoys equipping fellow teachers with powerful, current ideas and strategies designed to enhance student learning. **Join Sheri for an inspiring, engaging, creative, and fun day full of practical ways to help you increase students' learning and social-emotional growth through purposeful play.**

Dear Colleague:

Thank you for your commitment, enthusiasm, and joyful energy for teaching our youngest students. As Preschool, Pre-K and Kindergarten teachers, we are in a demanding and "pressure-filled" environment every day. Over my years of teaching, I have seen the academic expectations of our students change dramatically. We are the first teachers to emphasize educational standards that will follow our learners throughout their years of formal education. Keeping our focus on our students while developing meaningful learning experiences is not an easy challenge for us.

I have designed this seminar specifically to help you make best use of purposeful play in your own preschool or kindergarten classroom. Our day will be devoted to exploring outstanding ways you can integrate purposeful play within your existing curricula and instruction with your young learners. I want to equip you with the best, most current ideas and resources for increasing students' academic learning and social-emotional growth with purposeful play.

I am excited to share with you a wealth of highly practical ideas, activities and strategies that I have successfully used with my own students. I promise, everything I share is classroom-proven, meaningful and easy to use within your current program. Join me and experience the same joy of learning that your students will feel when they use their play-based thinking to solve problems and satisfy their own curiosity. I personally look forward to meeting you at the seminar as we share our dedication and passion of teaching our youngest children!

Sincerely,

Sheri Sutterley

Sheri Sutterley

P.S. I promise to make this day fast-paced, idea-packed and fun-filled with **practical and interactive ideas you can easily use right away.** Let's play!

'I am excited to share with you a wealth of highly practical ideas, activities and strategies that I have successfully used with my own students.'
