Dear Colleague:

The traditional social studies lessons and strategies that we've used for years need an update. Our students are entering a vastly different political, social, and economic environment than even ten years ago. They are asking for and require a different set of skills to be successful in today's local, state, national, and global communities. All of these changes make our task as a social studies teachers more important than ever.

My goal is to share the best Google and G Suite for Education strategies, tools and resources that you can use immediately to enhance your teaching and increase student learning. In this seminar, I will share the best of what I've found to be successful. All are classroom-tested and ready-to-use with your own students. I designed this seminar expressly with the needs of both you and your students in mind. This is not a sit and get day – come prepared to explore specific tools, gather ideas, and work with others to adapt instructional strategies. It will be a practical, hands-on learning experience specifically designed to improve your social studies instruction and assessment so that your students walk out of your classroom smarter and better prepared than when they walked in.

What you do every day is too important to leave to chance, so I'll make sure you leave with the best and most effective ideas that I've found! I'm looking forward to learning together with you as we work to prepare your learners for their futures. ***Whether your instruction is in-person, online or in a hybrid learning environment, you'll leave with numerous ideas and resources you can use immediately.***

Sincerely,
