Practical Ideas and Strategies

If you are looking for current, best practices and evidence to support your school emergency medical interventions, this is a seminar you won't want to miss! During this intensive, interactive and collaborative seminar, outstanding school nurse of more than 30 years, **SANDRA MORITZ**, will share dozens of the most current practices, strategies and practical tips to help school nurses become better first responders to medical emergencies in a school setting. As a school nurse, Sandra can relate to the seriousness of the daily health and medical challenges in your practice. Your ever-changing role as a school nurse will be examined from a perspective of how you can best respond when medical emergencies occur in your school setting. Gain greater confidence in your practice, discover new products that are now available to make daily interventions more effective and become better prepared for the unexpected. Realize your full potential by addressing the stress of your career choice, and learn ways to be more proactive with stress-reducing tips to survive and flourish as today's school nurse.

You will leave this seminar refreshed and renewed professionally and personally. Your effectiveness will be increased as the first responder in your school to medical emergencies, including lockdowns and evacuations. The evidence-based strategies and tools you'll gain will give you the confidence you need to be tomorrow's school nurse!

A Message From Seminar Leader, Sandra Moritz

Uniquely Qualified Instructor

SANDRA MORITZ is a nationally certified and experienced school nurse and coordinator with more than 30 years of hands-on school nursing practice. As her state's School Nurse of the Year, a recent National Association of School Nurses (2017) presenter and a national speaker, she is a frequent presenter at conferences, in-services and seminars. She currently serves on the board of Allergy and Asthma Network, an organization supporting families and students who have serious allergies and asthma. Sandra is the author of *SCHOOL NURSES: Best, Current Practices for School Medical Emergencies*, the extensive digital resource handbook participants will receive at the seminar. She has authored many articles in professional journals, including *Advance for Nurses* and NASN's *School Nurse*.

The often solo role of the school nurse transforms into the sharing world of school nurses as a result of the interactions with others at Sandra's seminars.

Sandra's participants find her seminars to be a knowledge-gaining experience and leave energized with new ideas and strategies and a personal connection to the world of school nursing.

Dear Colleague:

As a fellow school nurse and colleague, I understand the unique challenges we face in our changing role as today's school nurse. We are the first responders in schools, assisting students who need us the most. As a school nurse and health services coordinator of more than 30 years, I can relate to your daily concerns. To stay current in our roles today we must be prepared for the unexpected. As the first set of medical eyes in the school setting, planning for the unplanned is now another function of our role. We must respond quickly with assessment skills and knowledge based on the latest research. My ability to relate to other school nurses gives me a unique opportunity for a great day of sharing, as only one school nurse to another can understand. As your professional colleague, we will explore the current challenges in our career choice of school nursing.

Enjoy a day of sharing with other school nurses who also understand today's challenges. Learn practical new strategies to keep students safe while in your care. Get the latest information so that you can respond with confidence during the increasingly common school medical emergency. Be prepared for life-threatening situations by creating best practices during evacuations and lockdowns. Take care of yourself so your energies will be ready for our daily challenges. I believe you will leave this seminar refreshed, renewed with professional energy and better prepared to handle the stressors of your job. You will excel as the healthcare provider in your school setting and be confident in your skills as the school nurse! You'll gain practical information to use immediately in your school nurse setting and an extensive resource handbook written by your professional colleague—another school nurse! **Whether you are working in a school with face-to-face, online or hybrid instruction, you'll leave with the most up-to-date information to enhance your practice as a school nurse.**

Sincerely,

Sandra Moritz

P.S. You will receive **an extensive school medical emergency digital resource handbook** containing a summary of all the information and resources presented in this seminar.

'To stay current in our roles today, we must be prepared for the unexpected. As the first set of medical eyes in the school setting, planning for the unplanned is part of our role today.'
