Identify and address early on students with mental health issues including depression and anxiety ... Here's how

8. **Prepare Your Staff with Skills Checklists to Safely Transfer Responsibility**

Every 911 call is an opportunity to review and assess response during a crisis with team members

9. **More Effectively Address Issues Surrounding the Use of Unlicensed Personnel**

Use checklists and apps to increase the safe collaboration of others who work with school nurses

10. **Receive a Detailed School Medical Emergency Resource Handbook Complete with Protocols, Handouts and Forms**

Each participant will receive an extensive school medical resource handbook full of ready-to-implement materials that will streamline and increase efficiency in your school nursing practice on a daily basis

Outstanding Strategies You Can Use Immediately

What You Will Learn ...

- **Makeovers for you and your office** with laughter, lunch and a brighter office space ... School nursing can be stressful and we need to be healthy to help others
- **The new first aid guidelines for severe bleeding** ... Gain hands-on training by practicing applying tourniquets, compression dressings and receive a severe bleeding protocol for your practice
- The current recommendations from **FEMA, Sandy Hook Promise, ALICE training and ambulance associations** for safety at school during lockdowns or evacuations
- **Auscultation skills in breath sounds and the acute abdomen** ... A review and what's new in assessing common medical conditions which could become emergent
- **Current technology in alarms, smart alerts and apps for staff teaching** ... Ways technology can assist first responders in training and real-time student assistance
- **What's new to stock in your first aid cabinet** ... Available and secure stock medications and emergency supplies that need to be accessible
- **Effective ways to support students with mental health concerns** ... Elicit information to determine response ... Interview with questions that involve student participation and timely interventions
- Discover community liaisons with medical groups and foundations that can add to your knowledge and training resources ... Make **professional "best friends" with invested groups in the community**

I would recommend this seminar to better prepare for emergencies and get up-to-date information on the changing best practices that face school nurses today.'

Practical Ideas and Strategies

If you are looking for current, best practices and evidence to support your school emergency medical interventions, this is a seminar you won't want to miss! During this intensive, interactive and collaborative seminar, outstanding school nurse of more than 30 years, **SANDRA MORITZ**, will share dozens of the most current practices, strategies and practical tips to help school nurses become better first responders to medical emergencies in a school setting. As a school nurse, Sandra can relate to the seriousness of the daily health and medical challenges in your practice. Your ever-changing role as a school nurse will be examined from a perspective of how you can best respond when medical emergencies occur in your school setting. Gain greater confidence in your practice, discover new products that are now available to make daily interventions more effective and become better prepared for the unexpected. Realize your full potential by addressing the stress of your career choice, and learn ways to be more proactive with stress-reducing tips to survive and flourish as today's school nurse.

You will leave this seminar refreshed and renewed professionally and personally. Your effectiveness will be increased as the first responder in your school to medical emergencies, including lockdowns and evacuations. The evidence-based strategies and tools you'll gain will give you the confidence you need to be tomorrow's school nurse!

A Message From Seminar Leader, Sandra Moritz

Uniquely Qualified Instructor

SANDRA MORITZ is a nationally certified and experienced school nurse and coordinator with more than 30 years of hands-on school nursing practice. As her state's School Nurse of the Year, a recent National Association of School Nurses (2017) presenter and a national speaker, she is a frequent presenter at conferences, in-services and seminars. Sandra is the author of *SCHOOL NURSES: Best, Current Practices for School Medical Emergencies*, the extensive resource handbook participants will receive at the seminar. She has authored many articles in professional journals, including *Advance for Nurses* and NASN's *School Nurse*. She passionately interacts with other school nurses, supporting their personal challenges in dealing with medical emergencies in the school setting. As one school nurse to another, she understands the changing role of the school nurse. The often solo role of the school nurse transforms into the sharing world of school nurses as a result of the interactions with others at Sandra's seminars.

Sandra's participants find her seminars to be a knowledge-gaining experience and leave energized with new ideas and strategies and a personal connection to the world of school nursing.

Dear Colleague:

As a fellow school nurse and colleague, I understand the unique challenges we face in our changing role as today's school nurse. We are the first responders in schools, assisting students who need us the most. As a school nurse and health services coordinator of more than 30 years, I can relate to your daily concerns. To stay current in our roles today we must be prepared for the unexpected. As the first set of medical eyes in the school setting, planning for the unplanned is now another function of our role. We must respond quickly with assessment skills and knowledge based on the latest research. My ability to relate to other school nurses gives me a unique opportunity for a great day of sharing, as only one school nurse to another can understand. As your professional colleague, we will explore the current challenges in our career choice of school nursing.

Enjoy a day of sharing with other school nurses who also understand today's challenges. Learn practical new strategies to keep students safe while in your care. Get the latest information so that you can respond with confidence during the increasingly common school medical emergency. Be prepared for life-threatening situations by creating best practices during evacuations and lockdowns. Take care of yourself so your energies will be ready for our daily challenges. I believe you will leave this seminar refreshed, renewed with professional energy and better prepared to handle the stressors of your job. You will excel as the healthcare provider in your school setting and be confident in your skills as the school nurse! You'll gain practical information to use immediately in your school nurse setting and an extensive resource handbook written by your professional colleague—another school nurse!

Sincerely,

Sandra Moritz

P.S. You will receive **an extensive school medical emergency resource handbook** containing a summary of all the information and resources presented in this seminar.

'To stay current in our roles today, we must be prepared for the unexpected. As the first set of medical eyes in the school setting, planning for the unplanned is part of our role today.'
