Ten Key Benefits of Attending

"I really enjoyed this online seminar!

Terri was very helpful and I can't wait to try this approach with my students!"

– REBECCA BERWALDT, SLP

Who Should Attend

Speech-Language Pathologists serving students in grades PreK-6

1. **The Phonological Therapy Interventions Every SLP Can Use to Transform Their Caseload – Whether Working Face to Face or Online**

Learn powerful ways to provide efficient, productive and effective intervention for speech sound disorders that can reduce the amount of time children spend in therapy, reducing your caseload demands ... Help children make global gains across all phonemic categories, rapidly raising their level of intelligibility

2. **Rapidly Improve Speech Sound Production Across the Child's Entire Phonologic System**

Learn current, evidence-based strategies for selecting phonemic targets based on students' actual phonological knowledge, as well as how to use maximal oppositions in pairs in treatment ... Differentiate and tailor therapy materials to individual students' needs and see results across the child's sound system, not just on target phonemes

3. **Maximize Literacy Skill Development Through Your Therapy**

Simultaneously accelerate foundational literacy skill acquisition, phonological awareness and speech intelligibility ... Powerful, ready-to-use strategies to help children make rapid phonological progress, enabling success in all areas of their lives

4. **Propel Students' Learning of Phonology and Language**

Discover the key ingredients of powerful and effective therapy plans that guide students toward independence, and entice them to practice repeatedly while they take the lead in therapy activities

5. **Learn Timesaving Ways to Streamline Assessment and Evaluation**

Effective, efficient strategies to analyze a child's phonologic knowledge through single word and conversational samples ... Learn to analyze and apply assessment results to facilitate rapid, global improvement and significantly reduce students' time in therapy

6. **Goal-Writing Ideas Every SLP Should Know**

Discover the best ways to write parent-friendly goals that are quick, accurate and easy to measure, while also clear to everyone with knowledge of the child

7. **Select the Most Effective Phoneme Targets**

Facilitate rapid learning and progress using the most effective and current evidence-based approach to selecting phoneme targets ... Provide your students with as much information about the sound system as possible to facilitate rapid improvement in intelligibility

8. **Document Student Progress Efficiently and Effectively**

Maintain the flow of your therapy sessions as you track all levels of sound production from isolation to conversation

9. **Heighten Students' Engagement in Their Own Therapy**

Powerful, fun, therapy-tested strategies to increase students' response rate, even in group settings ... Numerous, evidence-based techniques that strongly engage students in their own speech sound learning

10. **Receive an Extensive Digital Phonological Therapy Handbook and Special Online Access**

Receive a digital resource handbook with detailed information for implementing this approach to rapid improvement in speech sounds, and special unlimited online access to forms, materials and links that will be updated on an ongoing basis

Outstanding Strategies You Can Use Immediately

What You Will Learn ...

- Discover how you can **make a rapid difference for children with severe speech sound disorders** – for multiple therapy models including teletherapy, group or individual push-in, and pull-out therapy
- Learn the **latest research-based approaches** for efficiently providing phonologic treatment
- Discover essential ways to use **phonological assessment as the basis for efficient therapy**
- **Expedite your therapy** by analyzing phonological testing results to effectively understand a child's system
- Discover the relationship between phonologic knowledge and **improvement in speech intelligibility**
- **Develop powerful implementation tools** for maximal pair target words, based on targets selected during the assessment process
- Develop a clear plan for implementing **evidence-based phonologic treatment** in your therapy
- **Help children take ownership** of their own speech sounds through practical, research-based therapy routines and approaches
- Set the stage for success and **support students' literacy development** through simple, yet powerful phonologic therapy activities
- **Learn the best, most current therapy approaches** and the tools to put them into practice
- **Practice using real data** to effectively analyze a child's speech sound system and determine which phonemes are most important for him or her
- **Engage and involve your students in the therapy process** through high-interest activities
- **Use children's literature as a springboard** for language sampling

'Very engaging and usable information. One of the best seminars I've attended!'

Practical Ideas and Strategies

In this live online seminar, outstanding presenter and experienced speech-language pathologist **TERESA FARNHAM** will equip you with practical assessment and treatment tools, strategies and ideas to help you facilitate rapid change in the phonological systems of the preschool and school age children with whom you work. Teresa will help you develop new strategies with the goal of improving the efficiency and effectiveness of your phonologic therapy. You will learn how to select phonemic targets based on students' actual phonological knowledge, as well as how to use maximal oppositions in pairs in treatment, yielding improved generalization across the child's entire phonologic system in a relatively short time. Teresa is the author of *Speech Language Therapy: Promoting Rapid Change for Children with Severe Phonological Disorder*, the extensive digital resource handbook you will receive at the seminar. **You will leave with a toolbox filled with practical strategies you can implement the very next day to more effectively assess, intervene and facilitate rapid phonological growth in children with various severe speech sound disorders – whether you are working face-to-face or via telepractice.**

A Message From Seminar Leader, Teresa Farnham

Uniquely Qualified Instructor

TERESA FARNHAM has worked extensively with children and adults with communication disorders as a school-based SLP, speech pathology supervisor, assistive technology consultant and private practitioner.

Teresa is the 2018 recipient of the National Patricia Lindamood Clinical Leadership Award for her role in promoting evidence-based practice in phonology within the profession. She is a highly sought after presenter on the subject of phonological disorders and enjoys sharing her knowledge and practical approaches with colleagues.

Her extensive school-based SLP experience uniquely qualifies her to understand the challenges of scheduling and caseload management that improving practice can alleviate. She is a popular presenter at regional, state and national levels on assistive technology, language and literacy, and best practices in speech-language pathology.

Join Teresa for a fast-paced, fun and informative day filled with powerful approaches to help you facilitate rapid change for your students with severe phonological disorders.

Dear Colleague:

Children with severe speech sound disorders pose an ongoing challenge for school-based speech-language pathologists. In my school practice, I found that children who were still working on those “last few sounds” in the upper elementary grades were particularly difficult to motivate, so my personal goal became remediating each child’s speech sound errors by the end of the third grade. But, how? And was it even possible?

As I researched how to move children as quickly as possible to having intelligible speech, I learned that there is a better way than the traditional sound-by-sound method I had been taught. This approach resulted in a practical therapy process that consistently moved children from not being understood by anyone in the classroom to having few or no speech sound errors, often in less than one school year. Parents would call me excitedly to report that Grandma could understand the child over the phone for the first time. Now, that’s satisfying!

This approach transformed my caseload: the most difficult cases were managed quickly, thoroughly and without the monotony (for both the child and speech pathologist) of multiple years of treatment of the same sounds, which left more time in my schedule for children with severe language impairments. Imagine having a student who is unintelligible at the beginning of kindergarten, yet finishes the year as a leader in his class! I’ve seen it happen!

Let me share what I have learned with you so that you can also experience the rewards of this kind of rapid progress. Moving children off the caseload because they have mastered our sound system is the best kind of caseload reduction there is! You will leave this live online seminar with a working knowledge of how to effectively assess children’s phonological knowledge, how to use the assessment information you gather to develop a comprehensive individualized therapy plan, and the critical elements that need to be included in each therapy session – whether you are working face to face or online. Plus, you will receive an extensive digital resource handbook that I have filled with materials, guides, and strategies you can use right away for your most difficult cases.

Sincerely,

Teresa Farnham, MA, CCC-SLP

P.S. As someone who is “in the trenches” with you, I will share practical, proven methods I have used to rapidly and successfully improve children’s phonology through videos of actual in-person and tele-therapy sessions.
