A Practical Approach to Classroom Management and Discipline, Grades 6-12

This set of PD Resource Kits focuses on how to engage middle and high school students in a well managed, highly productive first day of class; establish key classroom routines to maximize daily learning; and implement practical strategies for effectively addressing disruptive student behavior, including verbal assaults and actions that are threatening or intimidating.

Part I: Starting the Year with Proactive Classroom Management Strategies

- make best use of the first day of class to set a positive tone and establish high expectations for student attitudes and behaviors
- establish and reinforce management routines and procedures to gain more time for teaching and learning
- initiate more positive relationships with students using simple, straightforward strategies

Part II: Strategies for Dealing with Challenging, Difficult Students

- use a versatile repertoire of powerful strategies to respectfully and effectively deal with a wide range of student misbehaviors
- remain calm and in control, even when faced with highly inappropriate comments and actions
- stay out of power struggles and no-win confrontations
- work productively with challenging students to resolve problems and move towards more responsible classroom behavior

Flipped Learning

Flipped Learning: Practical Classroom-Based Strategies that Boost Student Learning and Achievement, Grades 6-12

Flipped learning is an instructional approach in which students gain basic understandings of concepts outside of class and teachers use class time to more thoroughly develop students' content knowledge and higher-order thinking skills. In this PD Resource Kit, teachers from a variety of content areas demonstrate classroom-based strategies and techniques for boosting student learning, developing their skills as self-guided learners and increasing student achievement.

- better differentiate instruction to address varying levels of student content knowledge
- structure class time around activities and experiences to deepen students' conceptual understandings and develop their proficiency with higher-order thinking and questioning
- transition from a teacher-centered delivery model to a well-managed, student-oriented active learning environment

PD Resource Kit in two formats:

 **Streaming Video** clips, downloadable facilitator's guide and PD Resources

NEW! Strategies for Promoting a Growth Mindset to Increase Students' Perseverance, Engagement and Success in Your MATH Classroom, Grades 6-12

Math teachers in grades 6-12 often deal with students who have a fixed mindset about math; "I'm not good at math" or "I don't 'do' math" are common perspectives among many middle and high school students. In this PD Resource Kit, teachers demonstrate practical, classroom-proven strategies and techniques to change students' attitudes about math and greatly enhance their understanding of key mathematical concepts. These strategies, effective with students in all levels of math courses in grades 6-12, include how to:

- "open up" math problems and tasks to promote thinking, collaborating, and multiple ways of arriving at solutions
- make the most of mistakes to enhance students' math learning and build their confidence
- infuse inviting activities and tasks into math classrooms to boost students' interest, increase their participation and enhance their mathematics learning
- transform students' fixed mindset to a positive growth mindset
